# Safety Information

- Read this owner's manual for your Navigation System carefully before using the system. It contains instructions about how to use the system in a safe and effective manner. Mazda assumes no responsibility for any problems resulting from failure to observe the instructions given in this manual.
- This manual uses pictographs to show you how to use the product safely and to alert you to potential dangers resulting from improper connections and operation. The meanings of the pictographs are explained below. It is important that you fully understand the pictographs and explanations in order to use this manual and the system properly.

Warning

## Warning

The presence of this warning symbol in the text is intended to alert you to the importance of heeding the operation instructions. Failure to heed the instructions may result in severe injury or death.

Warnings

- **Do not keep your eyes fixed on the monitor screen or operate the system while driving.**  
Do not change the settings and destination locations while driving. Minimize the time spent viewing the monitor screen and listening to the voice guidance while driving. Operating the system will distract the driver from looking ahead of the vehicle and can cause accidents. Always stop the vehicle in a safe location and use the parking brake before operating the system.
- **Always obey local traffic regulations.**  
Your guided route may include roads that are not open to vehicles or are closed due to traffic regulations. Comply with the local traffic regulations and take another route.
- **Do not use the unit when it is out of order.**  
If the unit is out of order (no image, no sound) or in an abnormal state (has foreign matter in it, is exposed to water, is smoking, or smells), turn it off immediately and consult an Authorized dealer, we recommend an Authorized Mazda Dealer. Using the unit in an out-of-order condition may lead to accidents, fires, or electric shocks.
- **Use the proper power supply.**  
This product is designed for operation with a negative grounded 12 V DC battery system.
- **Do not disassemble.**  
Do not disassemble the product or attempt to repair it yourself. If the product needs to be repaired, take it to an Authorized dealer, we recommend an Authorized Mazda Dealer.

Caution

**Caution**

The presence of this caution symbol in the text is intended to alert you to the importance of heeding the operation instructions. Failure to heed the instructions may result in injury or material damage.

Cautions

- **Do not use the product where it is exposed to water, moisture, or dust.**  
Exposure to water, moisture, or dust may lead to smoke, fire, or other damage to the unit. Make especially sure that the unit does not get wet in car washes or on rainy days.
- **Keep the voice guidance volume at an appropriate level.**  
Keep the volume level low enough to be aware of road and traffic conditions while driving.
- **Protect the insertion slot for the SD card which contains the navigation map data.**  
Do not insert any foreign object into the installation slot.
- **This navigation system is designed exclusively for use in automobiles.**  
This navigation system should only be installed in an automobile. Do not install it in a ship, aircraft, or any other vehicles except an automobile. Do not use it detached from the vehicle.

Operation is subject to the following two conditions;

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

# Introduction

## Safe Product Use

### ■ Extremely low or high temperatures may interfere with normal operation.

The inside of the vehicle can become very hot or cold when it is parked for extended periods in direct sunlight or in cold places with the engine turned off. The navigation system may not operate normally under such circumstances. Turn off the navigation system until the inside of the vehicle has cooled down or warmed up. If the system does not operate thereafter, consult an Authorized Dealer, we recommend an Authorized Mazda Dealer.

## Navigation System

This navigation system utilizes GPS\* satellite signals, a speed sensor and gyrosensor to track and display your vehicle's current position, and to guide you from your starting point to your destination along a calculated route.

\* : GPS (Global Positioning System) is a position detecting system utilizing the signals from GPS satellites deployed by the U.S. Defense Department.

## Screens

**Screens displayed in this manual may differ from those on the actual display.**

## LCD (Liquid Crystal Display)

Direct sunlight or other outside light sources make it difficult to view the images on the display. For moonroof-equipped vehicles, close the sunshade to better view the display.

# Names and Functions

## Steering Switch

The navigation system can be operated by pressing the steering switches.

### ① Left switch:

Press the switch while the selection cursor is displayed. The selection cursor can be moved to the left.  
Press the switch while the map scroll cursor is displayed. The Map screen can be scrolled to the left.  
Pressing the switch while in map mode switches the screen in the order of Map, Compass, and Course List screens. To switch back to the Map screen, press the switch on the Course List screen.

### ② Right switch:

Press the switch while the selection cursor is displayed. The selection cursor can be moved to the right.  
Press the switch while the map scroll cursor is displayed. The Map screen can be scrolled to the right.  
Pressing the switch while in map mode switches the screen in the order of Map, Course list, and Compass screens. To switch back to the Map screen, press the switch on the Compass screen.

### Note

The Course List screen is displayed only when the destination is set and the vehicle is on route.

- ③ Enter (up/down) switch: **Press the Enter (up/down) switch.**  
Press the Enter (up/down) switch to select the desired item. The navigation menu is displayed by pressing the Enter (up/down) switch while the Map screen is displayed.  
**Press the Enter (up/down) switch up or down.**  
To move the selection cursor up or down, press the Enter (up/down) switch up or down while the selection cursor is displayed.  
Press the Enter (up/down) switch up or down while the map scroll cursor is displayed. The Map screen scrolls up or down. Press the Enter (up/down) switch up or down while the Map screen is displayed to zoom in/out of the Map screen.
- ④ Navi switch: Used to switch to the navigation mode. Pressing the switch while the Navigation Menu screen or Map Scroll screen is displayed switches the display to the Map screen. Pressing the switch after the voice guidance has finished repeats the voice guidance. (  page 43)
- ⑤ BACK switch: Used to undo the previous screen operation.
- ⑥ INFO switch: Used to switch to the multi information display.

# Activation

## Activating the Navigation System

The following operation procedure is for activating the navigation system.

- 1 With the ignition switched to ACC or ON, press the Navi switch on the steering switch.

- 2 After a moment, the CAUTION screen is displayed.

- If you are in agreement with the CAUTION statement, press the Enter (up/down) switch up or down to set the cursor to **Agree**<sup>\*1</sup>. Press the Enter (up/down) switch to switch to the Map screen<sup>\*2</sup>.
- To change the language, set the cursor to **English/Español/Français**<sup>\*1</sup>. Press the Enter (up/down) switch to switch the screen to LANGUAGE SELECTION<sup>\*2</sup>. (  page 12)

\*1 :Press the Enter (up/down) switch up or down.

\*2 :Press the Enter (up/down) switch.

### Note

While on the Map screen, press the Enter (up/down) switch up or down to change the map scale.

## Setting the Language

The language can be changed using the Language setting displayed in the upper part of the screen.

### Before activating the navigation system

Select the desired language from the list.  
Press the Enter (up/down) switch to switch the screen to  
**CAUTION.** (  page 11)

### After activating the navigation system

1. Press the INFO switch to display the SETTINGS screen.
2. Select PREFERENCES and press the Enter (up/down) switch.
3. Select SELECT LANGUAGE and press the Enter (up/down) switch.
4. Select the desired language from the list.

## Setting the Clock, Outside Temperature Display and Other Settings

■ The following feature settings are possible, refer to the “Multi Information Display” in the owner’s manual.

- Clock: Constant display of time.
- Outside Temperature Display: Constant display of ambient temperature.
- Settings: Used to change the multi information display settings. (Distance unit, Display language)

## Upgrading the Map Information Version

The map information version can be upgraded. If you require the latest SD card of Navigation Map data, consult an Expert Dealer, we recommend an Authorized Mazda Dealer.

- 1 With the ignition switched to ACC OFF, insert a finger into the depression above the lid housing SD card of Navigation Map data (next to the navigation display), and open it.

- 
- 2** Slide the notch of the inner lid sideways with your finger to open the inner lid.

- 
- 3** The SD card of Navigation Map data will be visible. Press in the currently inserted SD card of Navigation Map data with a finger. After pressing in the SD card, it will eject partially. Grab the card with your fingers to pull it out.

- 
- 4** Insert the new SD card of Navigation Map data all the way in and close all the lids.

If the inner lid is closed while the SD card of Navigation Map data is not inserted all the way, the card could be damaged.

#### Notes

- After inserting the SD card of Navigation Map data, firmly close all of the lids.
- If the inner lid is not firmly closed, the navigation system will not function.

# Menu

## Navigation Menu Screen

Menu is displayed by pressing the Enter (up/down) switch while the Map screen is displayed.

- Set Destination ( page 22)
- Find Local POI ( page 32)
- Browse Map & Mark ( page 40)
- Cancel/Edit Route ( page 34)
- Navigation Setup ( page 15)

# Navigation Set Up

- You can alter the map display conditions, the route guidance conditions and show the system information.

## ■ Stop your vehicle before performing the following operations.

Do not change the settings and destination locations while driving. Minimize the time spent viewing the monitor screen and listening to the voice guidance while driving. Operating the system will distract the driver from looking ahead of the vehicle and may cause an accident. Always stop the vehicle in a safe location and set the parking brake before operating the system.

Before Steps **Navigation Menu** → **select** **Navigation Setup**

## Open the [Navigation Setup]

### ■ Auto Zoom

The Auto Zoom function automatically switches the map scale depending on the distance between the next guidance point and the current position. Used to switch the Auto Zoom function.

### ■ Map Color

Used to switch the map mode.

Day: To switch to the daytime screen.  
Night: To switch to the nighttime screen.  
Auto: The screen switches between daytime and nighttime displays in conjunction with the on/off of the vehicle's exterior lights.

### ■ Map Direction

Used to switch the map direction.

North Up: Geographic north is up.  
Head Up: The direction you are heading is up.

### ■ Show POI Icons

Used to display the selected POI icons on the Map screen.

### ■ Guidance Volume

Used to adjust the guidance volume.

Also adjustable using the audio volume knob during transmission of the voice guidance.

# Navigation Set Up

## Open the [Navigation Setup]

### ■ Arrival Time

The time which is displayed until reaching the destination or a way point can be set as an estimated arrival time or the remaining time.

Select to display the estimated arrival time, or to display the remaining time.

### ■ Average Speed

Set the average speed for each road to be driven. (This function sets the standard speed (average vehicle speed for each route) used for calculating the estimated arrival time when calculating the route time.)

### ■ Edit Memory Point

Used to edit the memory point or Home setting. ( page 36, 38)

### ■ Delete Previous Point

Used to delete the previously set destination.

### ■ Operation Guide

Used to switch the operating guide display.

Operation Guide

# Navigation Set Up

## Open the [Navigation Setup]

### ■ Auto Complete Text

When entering text, the system displays possible candidates of words which may match the one you are trying to input. If the system narrows down the candidate to one, the word is automatically displayed.

Used to switch the auto complete text.

### ■ Adjust Current Position

Used to adjust the vehicle position if it deviates from the Map screen.

### ■ Restore Defaults

Restores the default settings.

# Screen Names and Functions

## Screens Before Setting Route

- (1) **Map Orientation**  
(  page 15)
- (2) **Clock**
- (3) **Temperature**  
Displays the ambient temperature.
- (4) **Vehicle marker**  
Shows the current position and direction of your vehicle.
- (5) **Scale display**  
Displays the scale of the map.
- (6) **Current Road Name**  
Shows the name of the road you are currently driving on.
- (7) **Operation Guide**  
Displays the operational guidance.  
(  page 16)

## Screens During Route Guidance

- (1) **The traveled distance to the destination and the estimated arrival time/remaining travel time**  
Displays the remaining time to the destination.  
Estimated arrival time to the destination or the estimated remaining driving time can be displayed by selecting either of them. (  page 16)
- (2) **Route display**  
Shows the provided route as a thick blue line.
- (3) **Turn Arrow display**  
Shows the direction to turn at the next junction and the distance to the junction.
- (4) **Next Guided Street Name display**

## Adjusting the Map Scale

The screen map can be scaled to 14 different sizes.

- 1 Press the Enter (up/down) switch up or down while the Map screen is displayed to zoom in/out of the Map screen.

Scale bar

## Screen Adjustments

### ■ Brightness/Contrast

Brightness and contrast of the navigation screen can be adjusted.

1. Press the INFO switch to display the SETTINGS screen.
2. Select PREFERENCES and press the Enter (up/down) switch.
3. Select SCREEN ADJUSTMENT and press the Enter (up/down) switch.
4. Select BRIGHTNESS/CONTRAST and press the Enter (up/down) switch.
5. Select BRIGHTNESS or CONTRAST using the left or right switch.
6. Adjust the tone by operating the Enter (up/down) switch upward/downward.
7. After setting, press the Enter (up/down) switch to finish the setting.

### ■ Daytime/Night screen

When the headlights are on, daytime mode can also be selected (if a brighter screen is needed at night). This selection can only be done when the headlights are on.

- The screen can be returned to the daytime screen while the headlights or running lights are on by pushing the dashboard illumination knob. You will hear a beep sound and the illumination dimmer will be canceled. With each press of the dashboard illumination knob, the dashboard illumination will change from dim to full bright and back to dim again.

# Character Entry

## Street Name, City Name, and Other Input

Select the first several characters on the screen. (Step 1)

1. Press the Enter (up/down) switch up or down, select the letter, and press the Enter (up/down) switch. Pressing the Enter (up/down) switch with the cursor set to Del erases one letter.
2. Set the cursor to Done and press the Enter (up/down) switch. The area names, Point names, city names, or Street names which include the letters currently being input are displayed.

- Del** : The input character can be deleted.
- Done** : The list appears.
- Character** : You can change the type of text.

● Examples

**Street: CANAL**

Enter by selecting characters:

**Street: MAIN STREET**

Enter by selecting characters:

Select your target in the list. (Step 2)

The name list including the input spelling is displayed.

- If a desired name is not in the list, go back to Step 1, and try fewer characters.

**Street: 52ND**

Enter by selecting characters:

# Register Home

Before Steps **Navigation Menu** → select **Set Destination** → select **Home**

# Precautions/System Performance

## Voice Guidance

- The navigation system is just a support system for the driver. The driver should always pay attention to the traffic situation to safely make decisions. You may be unable at times to arrive at your destination due to out-of-date information on a map disc. You should be especially careful when selecting an urgent destination such as a hospital or a police station.
- Your route may sometimes include roads that are not open to vehicles or are closed due to traffic regulations. Please comply with the local traffic regulations.
- Do not change the settings and destination locations while driving. Minimize the time spent viewing the monitor screen and listening to the voice guidance while driving. Operating the system will distract the driver from looking ahead of the vehicle and may cause an accident. Always stop the vehicle in a safe location and use the parking brake before operating the system.

Voice guidance has the following functions:

### ■ Intersection guidance.

- The system voice announces the distance to an upcoming turn and the turning direction.
  - ➔ This guidance function is automatic. Therefore, you do not have to set it, and it cannot be disabled.
- The system vocally announces the distance to an upcoming highway branching point or junction.

When two intersections are close together, the voice guidance may be late.

When two roundabouts are close together, the voice guidance for the second one may be late.

## Repeating Voice Guidance

Pressing the Navi switch in the steering switches repeats the guidance if the voice guidance has been missed.

## GPS

GPS is a position detecting system utilizing the signals from GPS satellites deployed by the U.S. Department of Defense. The Mobile Navigation System uses input from three or more satellites and calculates the vehicle position based on the principle of triangulation.

The positioning accuracy of the system corresponds to the error display of the GPS which is from about 30 to 200 meters.

- If you are using the system for the first time, or if you have not used it for some time, it takes about 5 minutes (or about 2 minutes in open areas) to calculate your vehicle's position.

### ■ GPS signal reception is poor in the following places.

In tunnels.

Among high-rise buildings.

Under elevated roads.

In wooded areas.

- The GPS satellites are controlled by the U.S. Defense Department, which may intentionally lower positioning accuracy. In such cases, there may be vehicle position deviations.
- There may be vehicle position deviations for some time until GPS signals are received after switching on the ignition.

## Map Matching

This function compares your vehicle's tracking data with the road data on the map disc, applies dead reckoning to determine the road you are driving on, and displays your vehicle on that road on the map.

- Intelligent map matching addresses the following problems to achieve high accuracy in vehicle positioning.

### Position Correction for Elevated Roads.

Position accuracy is improved by detecting if the vehicle is running on or under an elevated road.

### Position Correction for Parking Garages.

Position accuracy is improved by detecting if the vehicle is driving in an elevated or underground parking garage.

### High-precision Gyrosensor.

A gyro detects turns with an accuracy of  $0.05^\circ$  per second. Combined with a speed sensor, it enables the system to display the current vehicle position even where GPS signals may be blocked.

- Using a spare tire in place of the regular one may cause vehicle position deviations.
- Any difference between the direction which your vehicle actually travels and that shown on the map is automatically eliminated by azimuth correction.

## Positioning Accuracy

In the following situations, your vehicle position may not be displayed correctly on the map. But, as you keep driving, your vehicle position will be automatically corrected utilizing map matching and GPS data.

Running on an elevated road.

Making a turn after driving on a long straight road.

Running on a steep mountain road.

Running on a spiral road.

Entering an intersection where a road branches off at a small angle.

Running on gridiron layout of roads.

Running on a slippery road with tire chains.

Snaking on a wide road.

When your vehicle is on a turntable with the ignition switched off.

After getting off a ferryboat or vehicle train.

If Necessary

## Route Guide

Although you may encounter the following problems in route guide, there is nothing wrong with the system.

For certain intersection shapes, the upcoming turn or the name of the intersection may not be announced.

For certain intersection shapes, you may be prompted to turn right or left when you should actually stay on the same road.

Voice guidance for the planned route may continue even after you have deviated from that route such as having turned too early.

Some points where the road divides on highways or toll roads may not be displayed or announced.

The Intersection Zoom Map may not always agree with the actual shape of the intersection.

The announced distance to an upcoming turn may differ slightly from reality.

The navigation system is just a support system for the driver. The driver should always pay attention to the traffic situation to safely make decisions. You may be unable to arrive at your destination due to out-of-date information on a map disc. You should be especially careful when selecting an urgent destination such as a hospital or a police station.

## Route Search

Although you may encounter the following problems in a route search, there is nothing wrong with the system.

If Necessary

## END-USER TERMS

The data ("Data") is provided for your personal, internal use only and not for resale. It is protected by copyright, and is subject to the following terms and conditions which are agreed to by you, on the one hand, and DENSO CORPORATION ("DENSO") and its licensors (including their licensors and suppliers) on the other hand.

© 2007 NAVTEQ. All rights reserved.

The Data for areas of Canada includes information taken with permission from Canadian authorities, including: © Her Majesty the Queen in Right of Canada, © Queen's Printer for Ontario, © Canada Post Corporation, GeoBase®

NAVTEQ holds a non-exclusive license from the United States Postal Service® to publish and sell ZIP+4® information.

©United States Postal Service® 2007. Prices are not established, controlled or approved by the United States Postal Service®. The following trademarks and registrations are owned by the USPS: United States Postal Service, USPS, and ZIP+4.

## TERMS AND CONDITIONS

**Personal Use Only.** You agree to use this Data together with vehicle navigation system for the solely personal, non-commercial purposes for which you were licensed, and not for service bureau, time-sharing or other similar purposes. Accordingly, but subject to the restrictions set forth in the following paragraphs, you may copy this Data only as necessary for your personal use to (i) view it, and (ii) save it, provided that you do not remove any copyright notices that appear and do not modify the Data in any way. You agree not to otherwise reproduce, copy, modify, decompile, disassemble or reverse engineer any portion of this Data, and may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws. Multi-disc sets may only be transferred or sold as a complete set as provided by DENSO and not as a subset thereof.

**Restrictions.** Except where you have been specifically licensed to do so by DENSO, and without limiting the preceding paragraph, you may not (a) use this Data with any products, systems, or applications installed or otherwise connected to or in communication with vehicles, capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (b) with or in communication with any positioning devices or any mobile or wireless-connected electronic or computer devices, including without limitation cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

**Warning.** The Data may contain inaccurate or incomplete information due to the passage of time, changing circumstances, sources used and the nature of collecting comprehensive geographic data, any of which may lead to incorrect results.

**No Warranty.** This Data is provided to you "as is," and you agree to use it at your own risk. DENSO and its licensors (and their licensors and suppliers) make no guarantees, representations or warranties of any kind, express or implied, arising by law or otherwise, including but not limited to, content, quality, accuracy, completeness, effectiveness, reliability, fitness for a particular purpose, usefulness, use or results to be obtained from this Data, or that the Data or server will be uninterrupted or error-free.

**Disclaimer of Warranty:** DENSO AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) DISCLAIM ANY WARRANTIES, EXPRESS OR IMPLIED, OF QUALITY, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. Some States, Territories and Countries do not allow certain warranty exclusions, so to that extent the above exclusion may not apply to you.

**Disclaimer of Liability:** DENSO AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) SHALL NOT BE LIABLE TO YOU: IN RESPECT OF ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT, WHICH MAY RESULT FROM THE USE OR POSSESSION OF THE INFORMATION; OR FOR ANY LOSS OF PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR ANY OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF YOUR USE OF OR INABILITY TO USE THIS INFORMATION, ANY DEFECT IN THE INFORMATION, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF DENSO OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some States, Territories and Countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to you.

**Export Control.** You agree not to export from anywhere any part of the Data provided to you or any direct product thereof except in compliance with, and with all licenses and approvals required under, applicable export laws, rules and regulations.

**Entire Agreement.** These terms and conditions constitute the entire agreement between DENSO (and its licensors, including their licensors and suppliers) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all written or oral agreements previously existing between us with respect to such subject matter.

**Governing Law.** The above terms and conditions shall be governed by the laws of the State of Illinois, without giving effect to (i) its conflict of laws provisions, or (ii) the United Nations Convention for Contracts for the International Sale of Goods, which is explicitly excluded. You agree to submit to the jurisdiction of the State of Illinois for any and all disputes, claims and actions arising from or in connection with the Data provided to you hereunder.

**Government End Users.** If the Data is being acquired by or on behalf of the United States government or any other entity seeking or applying rights similar to those customarily claimed by the United States government, this Data is a "commercial item" as that term is defined at 48 C.F.R. ("FAR") 2.101, is licensed in accordance with these End-User Terms, and each copy of Data delivered or otherwise furnished shall be marked and embedded as appropriate with the following "Notice of Use," and shall be treated in accordance with such Notice:

<p style="text-align: center;"><b>NOTICE OF USE</b></p> <p style="text-align: center;">CONTRACTOR (MANUFACTURER/ SUPPLIER) NAME: NAVTEQ CONTRACTOR (MANUFACTURER/SUPPLIER) ADDRESS: 425 West Randolph Street, Chicago, Illinois 60606</p> <p>This Data is a commercial item as defined in FAR 2.101 and is subject to these End-User Terms under which this data was provided.</p> <p style="text-align: center;">© 2007 NAVTEQ – All rights reserved.</p>
--

**If Necessary**

If the Contracting Officer, federal government agency, or any federal official refuses to use the legend provided herein, the Contracting Officer, federal government agency, or any federal official must notify NAVTEQ prior to seeking additional or alternative rights in the Data.

**End-User of Canada Data**

The Data may include or reflect data of licensors, including Her Majesty and Canada Post. Such data is licensed on an "as is" basis. The licensors, including Her Majesty and Canada Post, make no guarantees, representations or warranties respecting such data, either express or implied, arising by law or otherwise, including but not limited to, effectiveness, completeness, accuracy or fitness for a particular purpose.

The licensors, including Her Majesty and Canada Post, shall not be liable in respect of any claim, demand or action, irrespective of the nature of the cause of the claim, demand or action alleging any loss, injury or damages, direct or indirect, which may result from the use or possession of the data or the Data. The licensors, including Her Majesty and Canada Post, shall not be liable in any way for loss of revenues or contracts, or any other consequential loss of any kind resulting from any defect in the data or the Data.

End User shall indemnify and save harmless the licensors, including Her Majesty the Queen, the Minister of Natural Resources of Canada and Canada Post, and their officers, employees and agents from and against any claim, demand or action, irrespective of the nature of the cause of the claim, demand or action, alleging loss, costs, expenses, damages or injuries (including injuries resulting in death) arising out of the use or possession of the data or the Data.
