Available on select models, Android Auto™ provides convenient access to your Android™ smartphone's most useful features and apps right from your vehicle's Mazda Connect™ display, helping you stay focused on the road ahead.

Getting started with Android Auto™ is easy — simply download the Android Auto app on your Android™ device, connect to your Mazda vehicle and go!

BASIC REQUIREMENTS

- To use Android Auto, you'll need an Android phone running 5.0 (Lollipop) or higher
- For best performance, Android 6.0 (Marshmallow) or higher is recommended
- You'll need a high-quality, certified USB cable for the in-vehicle connection
- Your Android device must be paired via Bluetooth® to use Android Auto

GETTING STARTED

DOWNLOAD THE ANDROID AUTO APP

- On your compatible Android mobile device, **download and install the free Android Auto app** from the Google Play™ Store
- **Launch the Android Auto app** on your mobile device
- **Follow the on-screen instructions** to complete app setup prior to connecting to your vehicle
- For the best Android Auto experience, **accept all permissions and enable notification access** for Android Auto

CONNECT YOUR ANDROID DEVICE

- **Make sure your vehicle is in Park. The parking brake MUST be engaged** before getting started with setup
- **Connect a USB cable** to your Android device and the USB port in the center stack or inside the center armrest (depending on vehicle model)
- Mazda Connect™ will detect your device
- If you're a first-time user, **follow the on-screen prompts** to enable Android Auto (you may need to refer to your Android device to continue setup)

QUICK START GUIDE

Once a compatible Android™ device is connected to the USB port and connected via Bluetooth®, Android Auto will launch automatically. There are also two user-friendly ways to access and get started using Android Auto from the Mazda Connect™ home screen.
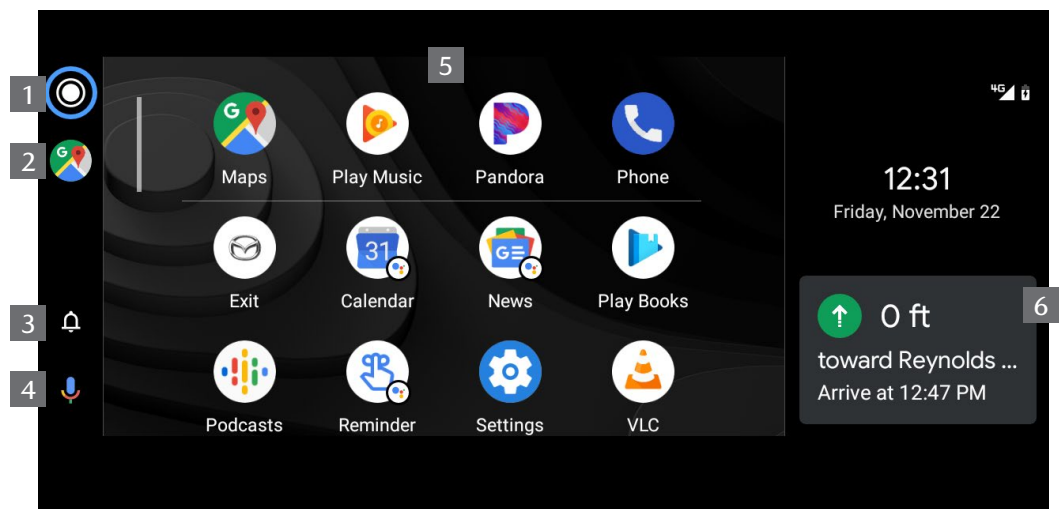

ACCESSING ANDROID AUTO

USE THE COMMANDER CONTROL

- Once connected, the easiest way to quickly access Android Auto is to **press and HOLD the Home button** on the Commander control

- You can also **slide the Commander control to the right** when on the Mazda Connect home screen and the Android Auto icon is present

NEW "APP LAUNCHER" HOME SCREEN

Android Auto's home screen (aka "App Launcher" view) features three distinct sections for information – a sidebar (left), App Launcher (middle) and an Adaptive Task Bar (right) – displaying the most relevant content in an intuitive layout.

1	**HOME BUTTON ICON**
2	**RECENTLY USED APP**
3	**NOTIFICATIONS**
4	**GOOGLE ASSISTANT™**
5	**APP LAUNCHER**
6	**ADAPTIVE TASK BAR/ CURRENT APP CONTROLS**

INTERACTING WITH THE HOME SCREEN

The middle of the Android Auto home screen is the default Commander control focus area. **Rotate** the Commander control to move up and down through the list of available app tiles. **Slide** the Commander control to the left to access the sidebar. **Slide** the Commander control to the right to access the Adaptive Task Bar.
All Android Auto™ functions can be performed using Mazda's multi-function Commander control or Google Assistant™ voice commands. Enter a destination, send text messages, make phone calls and more — all without having to pick up your smartphone.

USING THE COMMANDER CONTROL

Mazda's multi-function Commander control is designed to make interacting with Android Auto's features and functions easy and intuitive. Rotate, press or slide the Commander control to navigate through screens, apps and menus.

COMMANDER BUTTON SHORTCUTS

- **Press and HOLD the Home button** to toggle between Android Auto and Mazda Connect™ screens
- **Press the Home button** to quickly return to the Android Auto home screen from inside Android Auto apps
- **Press the Entertainment button** to quickly access the Now Playing screen or your last-used media app
- **Press the Maps** button to quickly access the map screen or current route guidance

USING GOOGLE ASSISTANT VOICE COMMANDS

Google Assistant replaces the Mazda Connect™ voice recognition system when a compatible Android™ device is connected to the vehicle's USB port. Google Assistant can be used to access many of your phone's functions while driving.

ACTIVATING GOOGLE ASSISTANT

- **Press the "Talk" button on the steering wheel** to activate Google Assistant. Then, say your command
- Or, **slide the Commander control to the left** to access the left sidebar. Rotate the Commander control to **highlight the microphone icon**, then **press down** to activate Google Assistant
- Or, say "OK Google" while on any screen (if the feature is enabled on your device)
