

Apple CarPlay™ USER GUIDE

Available on select models, Apple CarPlay™ seamlessly integrates your iPhone® with your vehicle's Mazda Connect™ display, allowing you to access useful features and apps while staying focused on the road ahead.

Getting started with Apple CarPlay™ is easy — simply connect your compatible iPhone® to your Mazda vehicle and go!

BASIC REQUIREMENTS

- To use Apple CarPlay, you'll need an iPhone 5 or above
- For best performance, it is always recommended that you update your iPhone to the latest iOS version
- You'll need an Apple Lightning® to USB cable to make the connection
- Siri® must be enabled to use Apple CarPlay

CONNECT YOUR IPHONE

- **Connect an Apple Lightning to USB cable** to your iPhone and the USB port in the center stack or inside the center armrest (depending on vehicle model)
- Mazda Connect™ will detect your iPhone
- If you're a first-time user, **follow the on-screen prompts** to enable Apple CarPlay
- If you're a first-time user, **select "Allow" on the pop-up notification displayed on your iPhone.** This will allow your vehicle to access Apple CarPlay content on your iPhone without requiring you to unlock your iPhone first

Once a compatible iPhone® is connected to the vehicle's USB port, Apple CarPlay™ will launch automatically. There are also multiple, user-friendly ways to access and get started using Apple CarPlay from the Mazda Connect™ home screen.

COMMANDER CONTROL

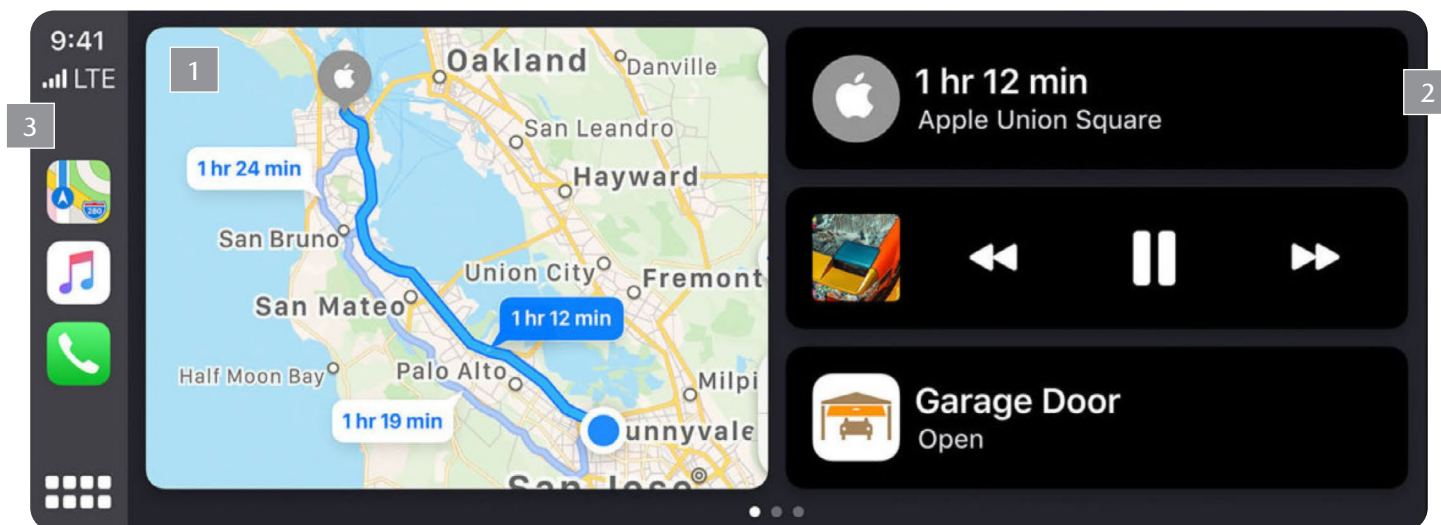

Once connected, the easiest way to quickly access Apple CarPlay from the Mazda Connect screen is to **press and HOLD the Home button** until the Apple CarPlay screen appears.

APPLE CARPLAY ICON

Once connected, **slide the Commander control to the right** when on the Mazda Connect home screen and the Apple CarPlay icon is present.

Apple CarPlay's new Dashboard View centralizes your most commonly used tasks all on the same screen, so there's no need to flip back and forth between your music or podcast app, the map and communication apps.

SECTIONS AND ICONS

1 MAPS

Displayed prominently in the middle of the screen.

Note: The Maps section of Dashboard View will always display Apple Maps. Third-party navigation apps can be used via Apple CarPlay, but will not appear in Dashboard View.

2 SMART SIRI SUGGESTIONS

Provides quick access to commonly used tasks. This allows you to view, interact with and/or select three of your most recently used apps (e.g., music, podcasts, meeting notices via calendar app, etc.).

3 SIDEBAR

Displays your most recent (or currently in-use) icons, time, signal and network, and the App View icon (formerly the "Home" icon).

- Using the Commander control, **highlight and select the App View icon** to change to App View
- Using the Commander control, **highlight, select and HOLD the App View icon** to activate Siri

Similar to your iPhone®'s home screen, Apple CarPlay's familiar App View provides a list of all available apps.

1 APPS

Ten app tiles are displayed on the App View screen. Rotate the Commander control to highlight an app in blue. Press down to launch.

2 RECENTLY USED APPS

Displayed on the left side of the App View screen.

Note: The recently used apps sidebar is not selectable when on the App View screen.

3 DASHBOARD VIEW/APP VIEW

- Short press – Switches to Dashboard View
- Long press – Activates Siri®

4 CALENDAR APP

Displays upcoming appointments from your Calendar app. If a destination is attached to an appointment, you can launch Apple Maps for directions straight from the Calendar app.

5 SETTINGS

Access personalization settings that include:

- Do Not Disturb While Driving (pauses all notifications)
- Appearance – “Automatic” (light/dark) or “Always use Dark Mode”
- Siri Suggestions (On/Off)
- Show album art (On/Off)

6 RETURN TO MAZDA CONNECT™

Select the Mazda icon to return to the Mazda Connect home screen. You can also **press and HOLD the Home button** on the Commander control to toggle between Apple CarPlay and Mazda Connect interfaces.

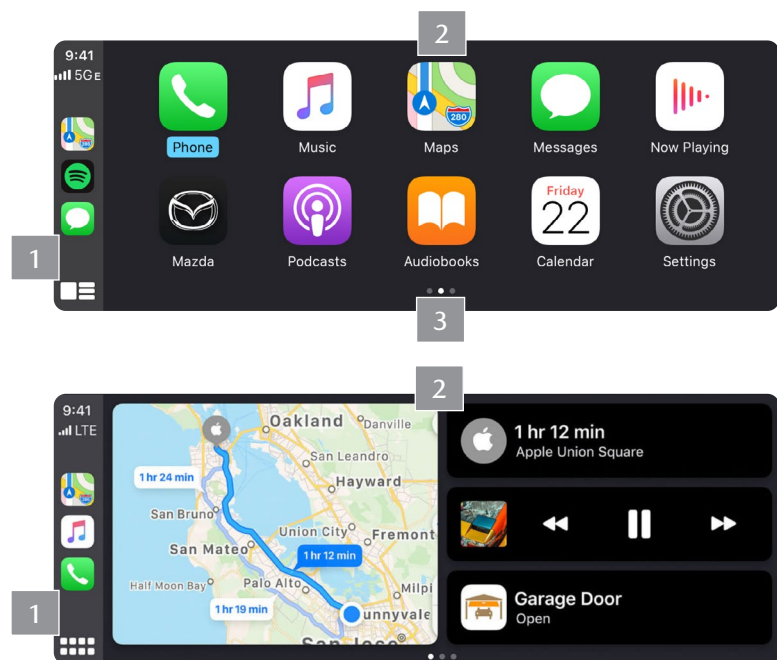

7 ADDITIONAL PAGES

Dots at the bottom of the screen indicate that there are more available apps. Rotate the Commander control to the right to view more apps.

CUSTOMIZING THE HOME SCREEN

Much like your iPhone's home screen, you can also rearrange and customize the apps displayed on the Apple CarPlay home screen. On your iPhone, open **Settings**, then tap **General**. In General settings, tap **CarPlay**. Then, tap **Mazda**. Use the Apple CarPlay home screen displayed on your iPhone to rearrange or hide apps.

All Apple CarPlay™ functions can be performed using Mazda's multi-function Commander control, which is designed to make interacting with Apple CarPlay's features and functions easy and intuitive.

USING THE COMMANDER CONTROL ON THE HOME SCREEN

1 SIDEBAR

The sidebar contains recently used apps, clock, signal strength and the Dashboard View/App View icon. The sidebar is visible on all Apple CarPlay screens

- To highlight a recently used app, **rotate the Commander control to the left, then press down** to select and launch the highlighted app
- To highlight the Dashboard View/App View icon, **rotate the Commander control to the left**. Press down to return to the Apple CarPlay home screen or toggle between Dashboard View/App View. Press and HOLD to activate Siri®

2 MAIN DISPLAY

The middle of the screen displays apps compatible with Apple CarPlay

- **Rotate the Commander control left or right** to highlight the desired app (or feature tile in Dashboard view)
 - **Slide the Commander control forward/rearward** to quickly skip from one line to the next
- **Press down** on the Commander control to select and launch the app (or to access a feature tile in Dashboard View)

3 ADDITIONAL APPS (App View)

- To access additional pages of apps, **rotate the Commander control to the right**. Or, at the end of a line of icons, **slide the Commander control to the right**

The shortcut buttons on the Commander control, located right at the driver's fingertips, give quick access to a variety of Apple CarPlay™ features.

HOME BUTTON

- Press and **HOLD** the **Home button** to toggle between Apple CarPlay and Mazda Connect screens (when a compatible iPhone is connected)
- Press the **Home button** to quickly return to the Apple CarPlay home screen from inside Apple CarPlay apps
- Press the **Home button** from Dashboard View or App View to toggle between the two views

ENTERTAINMENT BUTTON

- When listening to music from an app that is compatible with Apple CarPlay, **press the Entertainment button** to pull up the Now Playing screen
- When listening to music via Apple CarPlay, the Entertainment button will open the Now Playing screen, even while using Mazda Connect

MAP BUTTON

- Press the **Map button** to quickly access the Apple Maps screen or current route guidance
- If a route is set using Apple Maps, the Map button will open the Apple Maps screen, even while using Mazda Connect

BACK BUTTON

- Press the **Back button** to return to the previous screen

Siri® replaces the Mazda Connect™ voice recognition system when a compatible iPhone® is connected to a front USB port. Siri can be used to access many of your iPhone's functions while driving. Use Siri to enter a destination, send text messages and make calls – all without having to pick up your iPhone.

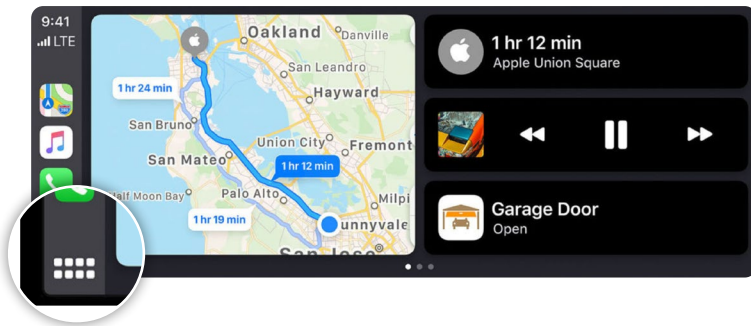

ACTIVATING SIRI

STEERING WHEEL CONTROLS

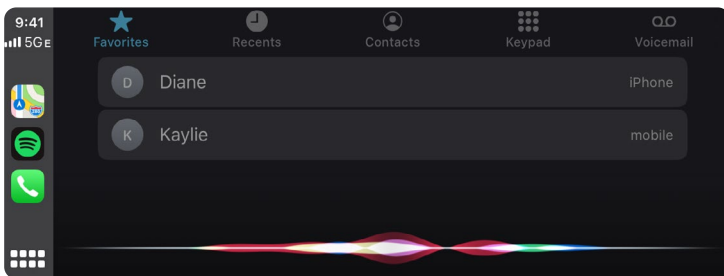

Press the **"Talk"** button on the steering wheel to activate Siri.

Note: Not all third-party apps support voice recognition through Siri.

COMMANDER CONTROL

Rotate the **Commander control** to highlight the App View/Dashboard View icon. Then, **press and HOLD** the **Commander control** to activate Siri.

HEY SIRI

Say "Hey Siri" while on any screen (if the feature is enabled on your iPhone).

SAYING COMMANDS

After Siri is activated, you'll hear an audible prompt, with the signature Siri light waves at the bottom of the display.

For more information on Siri and its functionality, visit: <https://www.apple.com/ios/siri/>

Making calls with Apple CarPlay™ is as simple as using your iPhone®.

PHONE APP CATEGORIES

Phone menu categories are listed across the top of the Phone app. Select from the categories to view your favorites, recent calls, contact list, keypad and voicemail.

USING THE PHONE APP

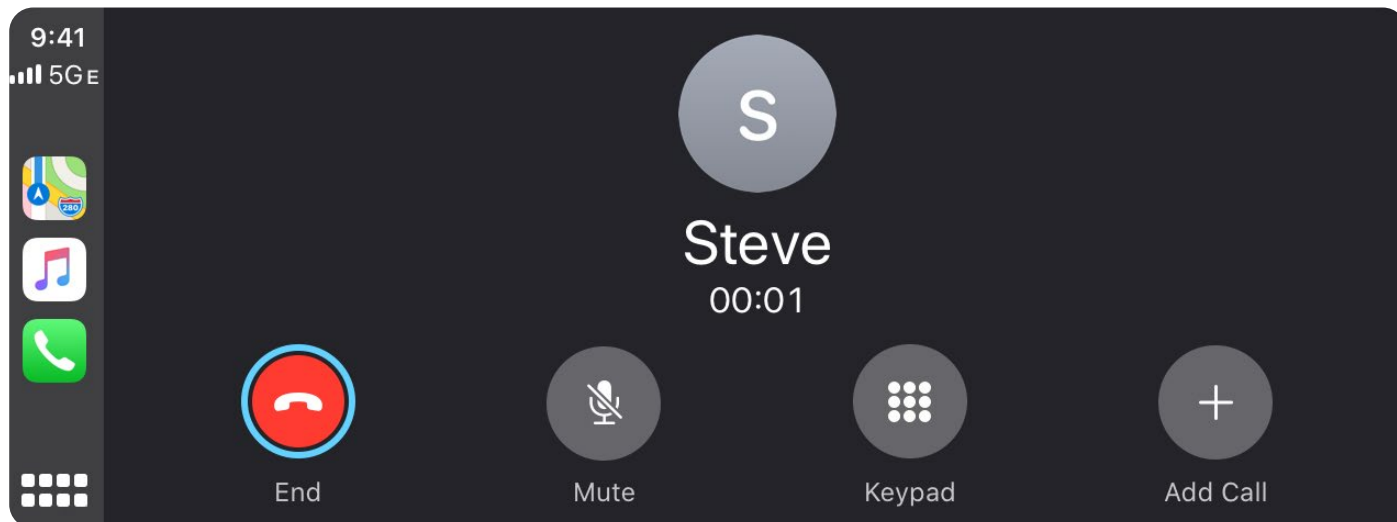

- From the App View screen, **rotate the Commander control** to highlight the Phone app icon and **press the Commander control down** to open
- **Rotate the Commander control** to choose between: Favorites, Recents, Contacts, Keypad and Voicemail

BROWSING CONTACTS

- **Rotate the Commander control** to browse contacts one at a time
- **Slide the Commander control rearward** (or forward) to skip contacts by letter

Note: When an iPhone is connected to the USB port, the "Communication" screen in Mazda Connect™ is disabled. All actions, such as making calls and reviewing contact information, can be completed via Apple CarPlay's Phone app.

Hands-free calling via Siri® helps keep you connected while maintaining focus on the road.

PLACING A PHONE CALL

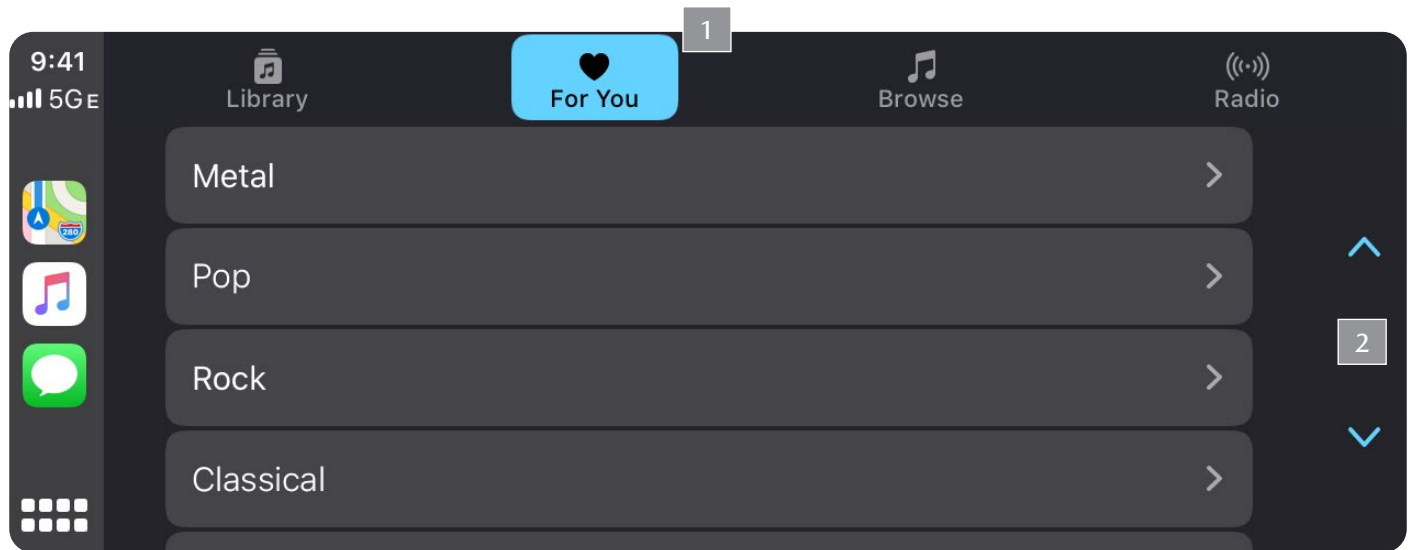

- **Via Contacts** – (when parked) Highlight the contact you want to call. Press the Commander control to call that contact
- **Via Keypad** – (when parked) Rotate the Commander control to highlight numbers on the keypad. Press the Commander control to enter a number
- **Via Siri** – Press the “Talk” button on the steering wheel and say, “Call,” followed by a contact’s name

ANSWERING AND ENDING A PHONE CALL

- To answer an incoming call, **press down on the Commander control** when the "Answer" icon is highlighted. Or, press the "Talk" button on the steering wheel
- To end a call, **press the "End" button on the steering wheel** or rotate the Commander control to highlight and select the End icon on screen

Note: When an iPhone is connected to the USB port, the “Communication” screen in Mazda Connect™ is disabled. All actions, such as making calls and reviewing contact information, can be completed via Apple CarPlay’s Phone app.

With Apple CarPlay™, you can access audio entertainment through the Apple Music app or compatible third-party music and media apps such as Spotify® and Pandora®.

1 **CATEGORIES** – Change content categories

2 **CONTENT** – Scroll to view and select content

PLAYING MUSIC

- From App View – **Rotate the Commander control to highlight the Music app**, then press down to select and launch
- If third-party music and media apps are downloaded and installed (e.g., Spotify, Pandora), rotate the Commander control to select and launch the desired app
- Once an app launches, **rotate the Commander control to scroll through your music** or audio choices
- Stop at the desired song, artist, album or playlist and **press down on the Commander control to play**

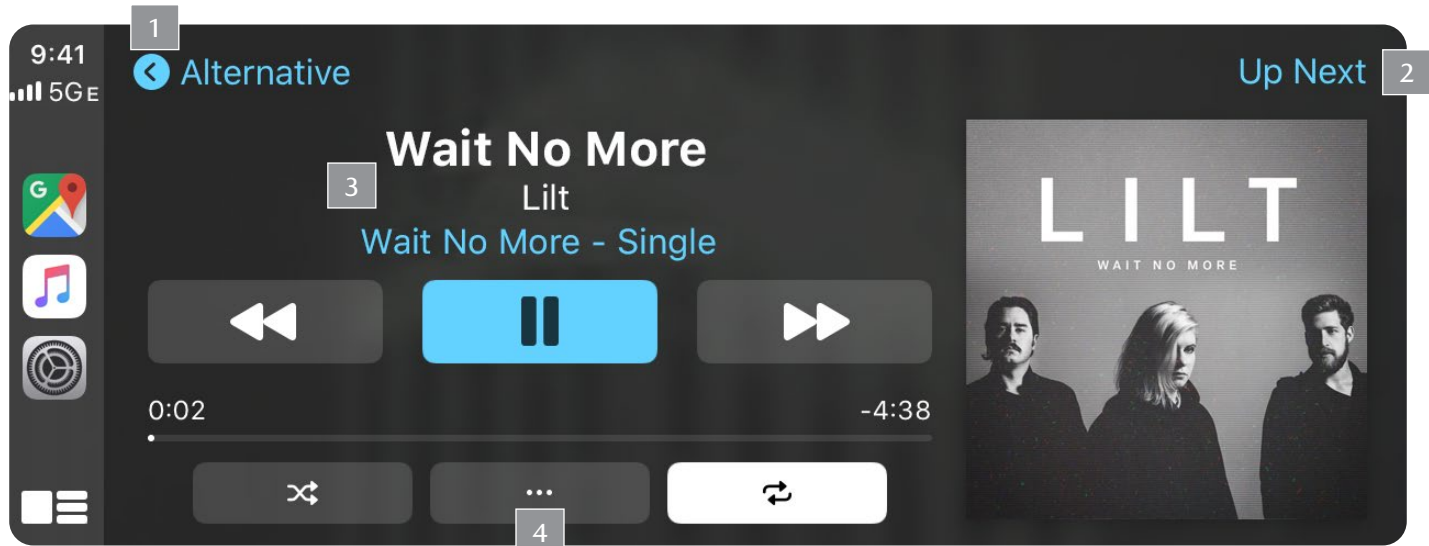

VOLUME KNOB

While driving, the Volume knob is the simplest way to control your music or audio.

- **Adjust the Volume** – Twist the volume knob to turn the volume up or down
- **Skip Songs** – Slide the volume knob to the left or right to skip songs
- **Pause/Play** – Press the volume knob down to pause or play an audio source

With Apple CarPlay™, all your favorite music, podcasts, audiobooks and more are just a command away.

1 **BACK** – Return to previous

3 **NOW PLAYING** – With controls for pause/play and skip

2 **UP NEXT** – See songs in queue

4 **SONG OPTIONS** – Scrub bar, shuffle, more options, repeat

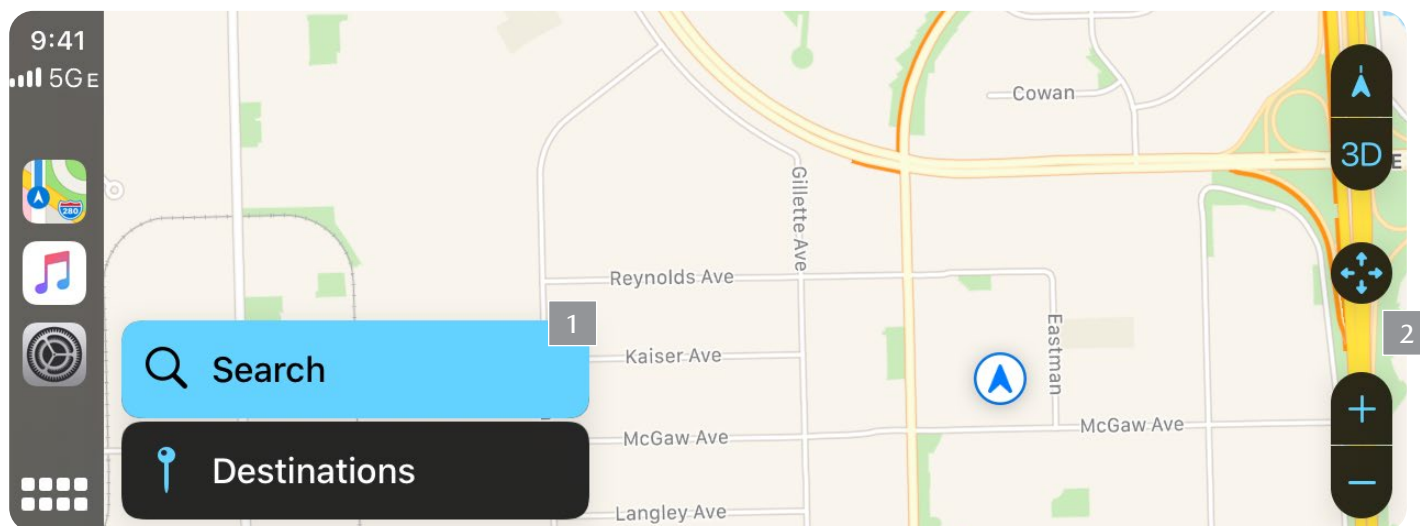

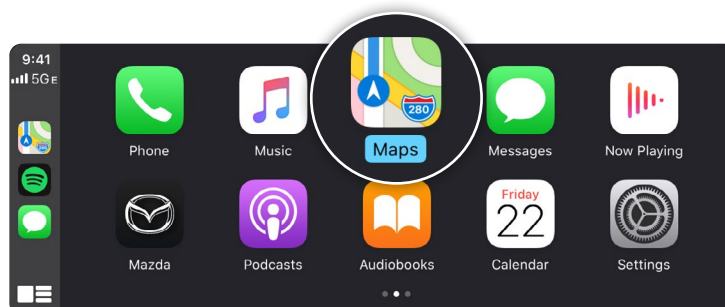

USING VOICE COMMANDS TO PLAY MUSIC

Press the **“Talk”** button on the steering wheel to activate Siri, then say, **“Play,”** followed by your desired music choice (e.g., song, title, album name, artist name).

With Apple CarPlay™, you can input, search for and select a destination to receive turn-by-turn route guidance via Apple Maps™.

ACCESSING APPLE MAPS

- **Via App View** – On the Apple CarPlay home screen, **rotate the Commander control** to highlight the Maps icon and **press down to select**
- **Via Dashboard View** – Apple Maps is always displayed in Dashboard View. To view the map at full screen, simply **rotate the Commander control to highlight the map** and **press down to select**

1 DESTINATION OPTIONS

2 MAP CONTROLS

INTERACTING WITH APPLE MAPS

- Menu options are listed on the right side of the screen. If map options are not visible, press down on the Commander control to bring them up
- To center the map, rotate the Commander control to **highlight and select the arrow icon**
- To toggle between 3D and flat-map images, **highlight and select "3D"**
- To adjust the map area, **rotate the Commander control to the right** to highlight and select the map adjust button
- To Zoom in and out of the map, rotate the Commander control to the right to **highlight and select the toggle buttons (+/-)**

Navigating to a destination using Apple CarPlay™ is similar to using your iPhone®.

NAVIGATING TO A DESTINATION

- **Rotate the Commander control** to select either Search or Destinations
 - **Search** – Points of interest, such as gas stations, parking, restaurants
 - **Destinations** (via Siri voice command or via manual input) – View and navigate to recently visited destinations
- Or, **press the “Talk” button** on the steering wheel to activate Siri, then **say, “Navigate to,”** followed by your destination
- You can also use Siri to find POIs (e.g., “Find a gas station nearby”)

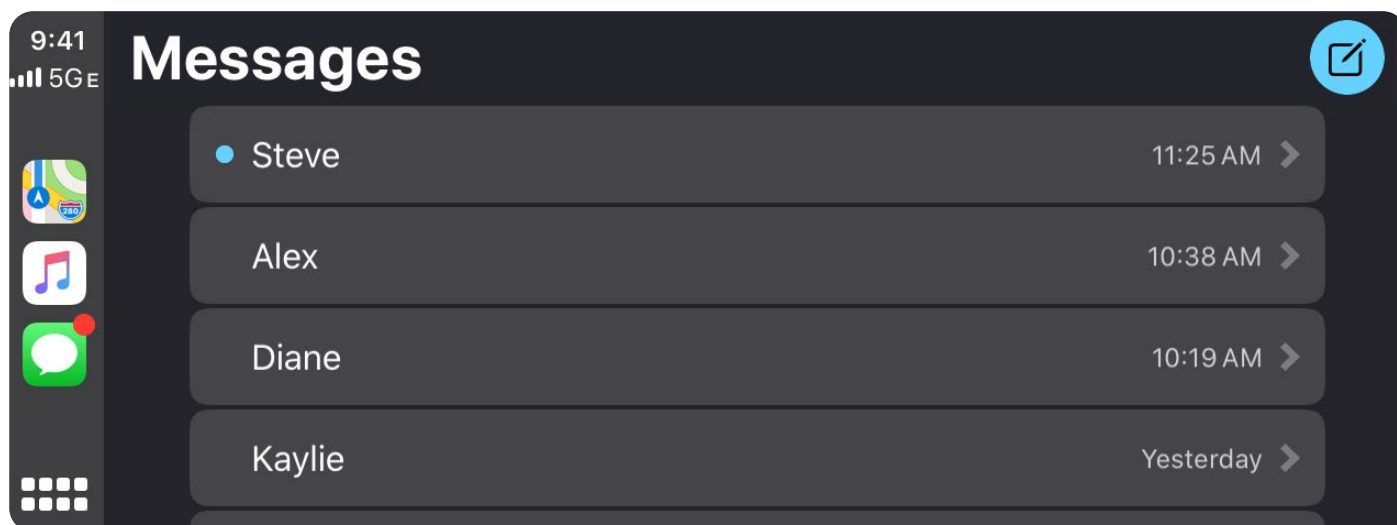

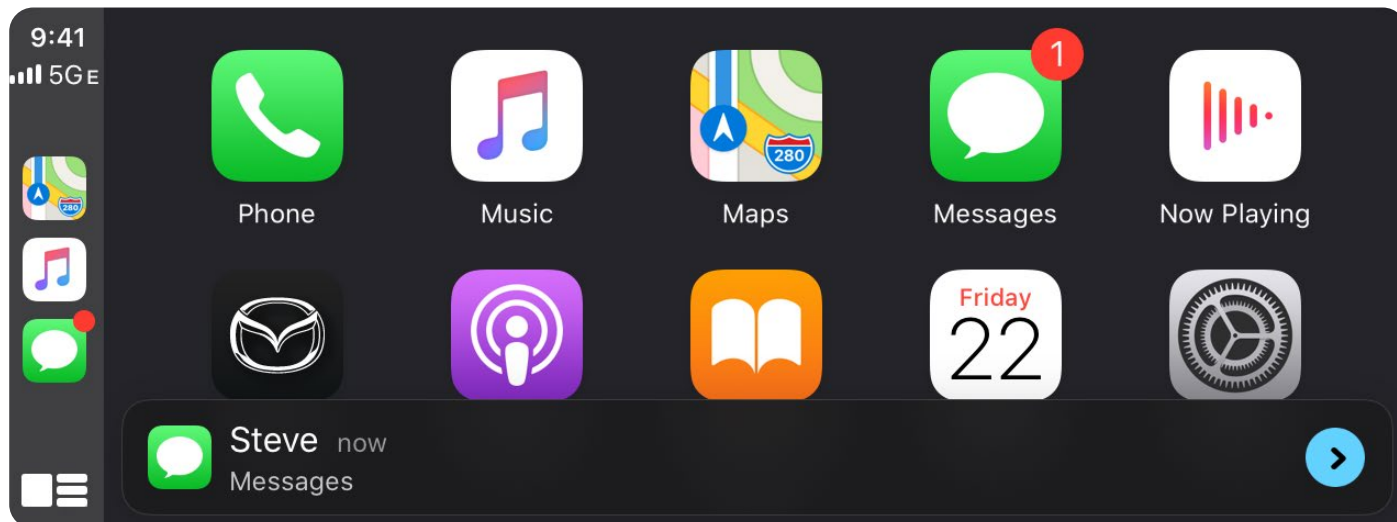

SHARE ETA

- When navigating to a destination, use the Commander control to select “Share ETA”
- Select a contact to share your ETA

SEARCH

- When navigating to a destination, select the Search function during a route to bring up additional points of interest (POI)
- Select a POI to add it as a new stop on your current route

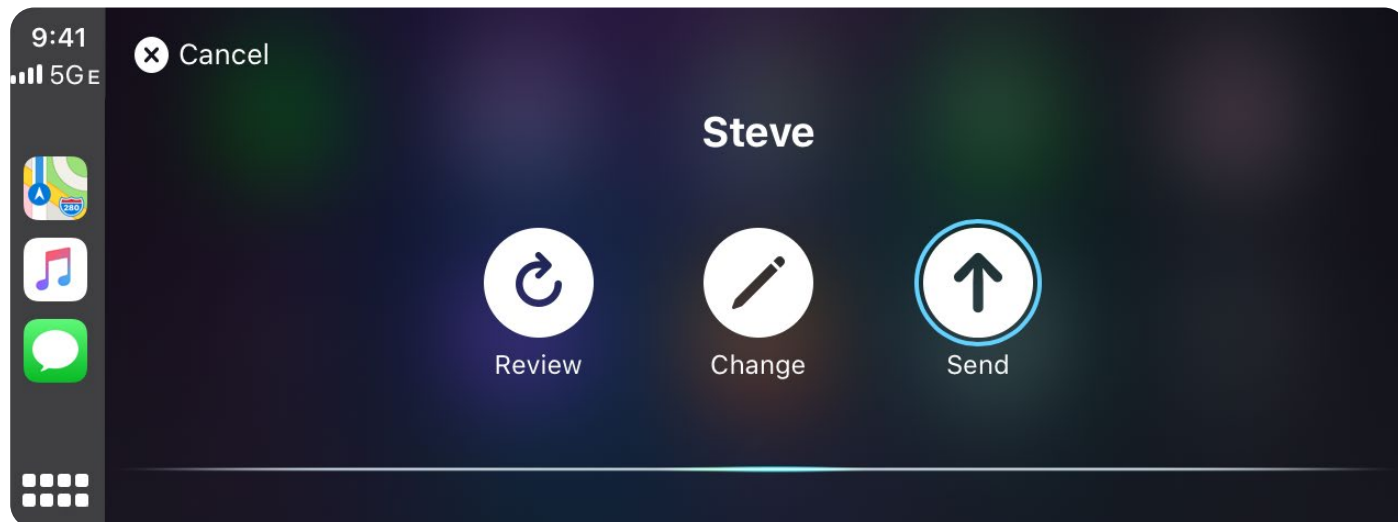

Just like using your iPhone®, keeping in contact is easy with Apple CarPlay.

READING AND REPLYING TO MESSAGES

- All incoming messages are briefly displayed as banner notifications on the bottom of the screen. To read or respond, **press down on the Commander control when the banner notification is visible**. Siri will read your message and prompt you to reply. It will also give you the option to call the sender or replay the message
- After the banner notification disappears, you'll see a red notification icon on your Messages app, indicating that you have an unread message
- **Rotate the Commander control** to highlight Messages on the Home Screen (App View) or in the sidebar (recently used apps). **Press down to select**
- Select a message to have Siri read it aloud. Siri will ask you if you want to reply to the message

While driving, Siri® will help you send and read messages without the need to take your eyes off the road.

SENDING MESSAGES

- Activate Siri, then say, “Text,” followed by the contact’s name
- Siri will prompt you to **dictate and confirm your message**

ADDITIONAL FEATURES

- **Review** – Replay and review your messages instantly and quickly (bypass Siri)
- **Send Manually** – Use the Commander control to send a message manually by **highlighting “Send” and pressing down**
