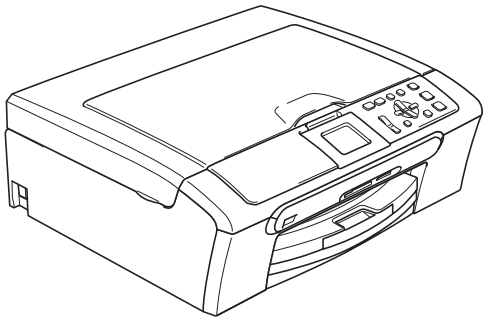
Quick Setup Guide

DCP-350C
DCP-560CN



Before you can use the machine, you must set up the hardware and install the software.
Please read this Quick Setup Guide for the correct setup procedure and installation instructions.

STEP 1
Setting Up the Machine

STEP 2
Installing the Driver & Software

Setup is Complete!

Keep this Quick Setup Guide, the User's Guide and the supplied CD-ROM in a convenient place for quick and easy reference at all times.

Symbols used in this guide

Warning	Caution	Improper Setup
Warnings tell you what to do to prevent possible personal injury.	Cautions specify procedures you must follow or avoid to prevent possible damage to the machine or other objects.	Improper Setup icons alert you to devices and operations that are not compatible with the machine.
Note	User's Guide, Software User's Guide or Network User's Guide	
Notes tell you how you should respond to a situation that may arise or give tips about how the current operation works with other features.	Indicates reference to the User's Guide, Software User's Guide or Network User's Guide which is on the CD-ROM we have supplied.

The ink cartridges are on top of the paper tray. See *Removing the protective parts* on page 4 **Ink Cartridges**			

An interface cable is not a standard accessory. You need to purchase the proper interface cable for the interface you want to use (USB or network).

USB cable

- Please make sure you use a USB 2.0 cable that is no longer than 6 feet long (2 meters).
- Your machine has a USB interface that is compatible with the USB 2.0 specification. This interface is also compatible with Full-Speed USB 2.0; however, maximum data transfer rate will be 12 Mbits/s. The machine can also be connected to a computer that has a USB 1.1 interface.
- DO NOT connect the interface cable at this time.
  Connecting the interface cable is done during the software installation process.
  When you use a USB cable, make sure you connect it to the USB port of your computer and not to a USB port on a keyboard or a non-powered USB hub.

Network cable (DCP-560CN only)

- Use a straight-through Category5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.

Control panel

3 Menu keys
4 Start keys
5 Stop/Exit key
6 On/Off key
7 Ink key
8 Mode keys
9 Warning LED

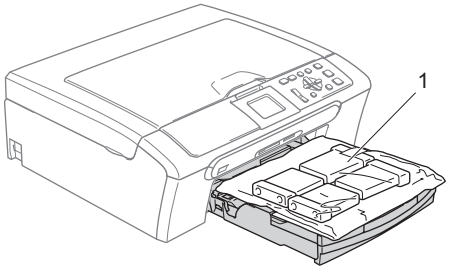
For the details of the control panel, see Control panel overview in Chapter 1 of the User's Guide.

■ Illustrations in this Quick Setup Guide are based on DCP-350C.

1 Removing the protective parts

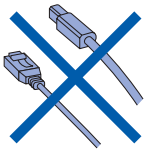
1 Remove the protective tape and film covering the scanner glass.

2 Remove the foam bag (1) containing the ink cartridges from on top of the paper tray.



Improper Setup

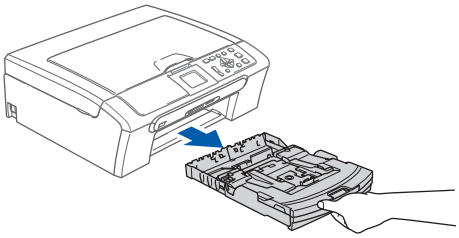
DO NOT connect the interface cable. Connecting the interface cable is done during the software installation process.

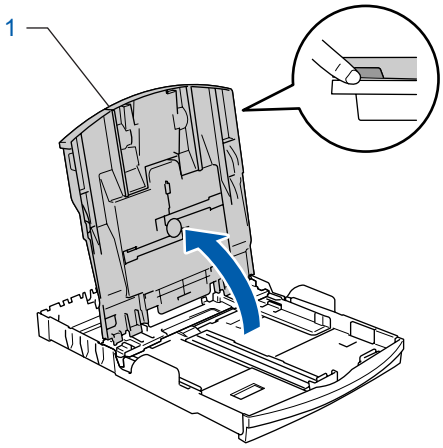


2 Loading paper

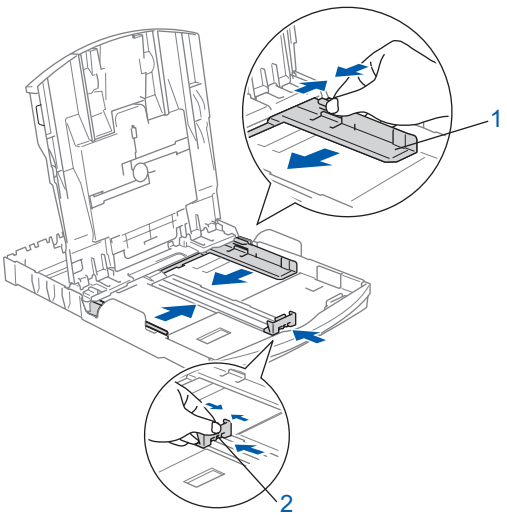
You can load up to 100 sheets of 20 lb (80 g/m^2) paper.
For details, see Acceptable paper and other media in Chapter 2 of the User's Guide.

1 Pull the paper tray completely out of the machine and lift the output paper tray cover (1).

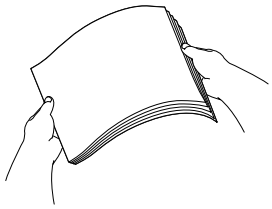




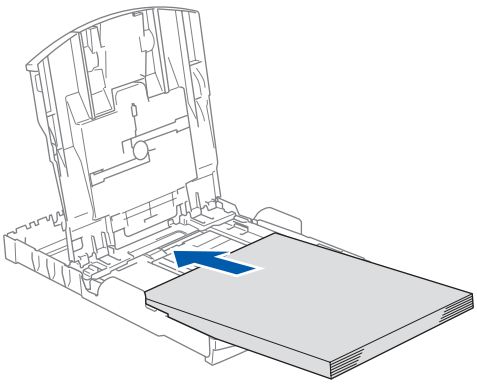
2 Press and slide the paper side guides (1) and paper length guide (2) to fit the paper size.



3 Fan the stack of paper well to avoid paper jams and misfeeds.

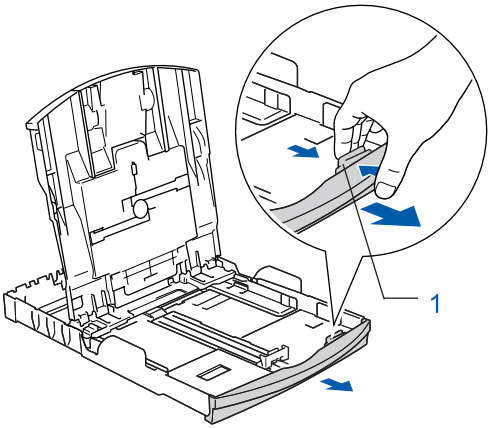


4 Gently put the paper into the paper tray print side down and top edge first.
Check that the paper is flat in the tray.

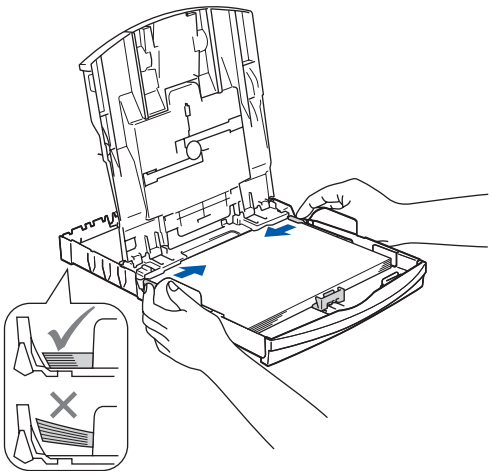


Note

When you use Legal size paper, press and hold the universal guide release button (1) as you slide out the front of the paper tray.



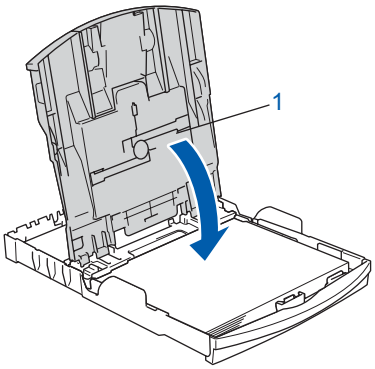
5 Gently adjust the paper side guides with both hands to fit the paper.
Make sure that the paper side guides and paper length guide touch the edges of the paper.



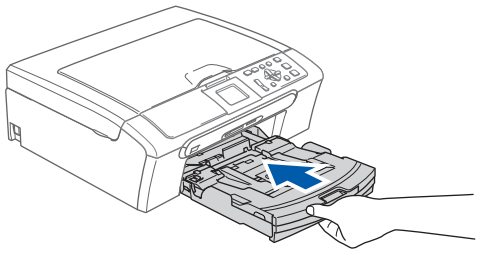
Note

Be careful that you do not push the paper in too far; it may lift at the back of the tray and cause paper feed problems.

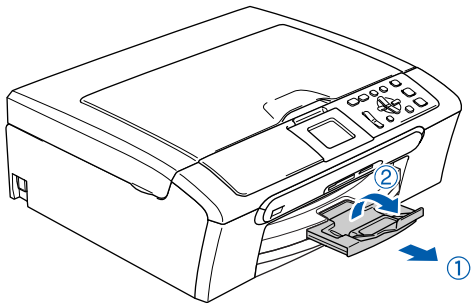
6 Close the output paper tray cover (1).



7 Slowly push the paper tray completely into the machine.



8 While holding the paper tray in place, pull out the paper support ① until it clicks, and then unfold the paper support flap ②.



Note

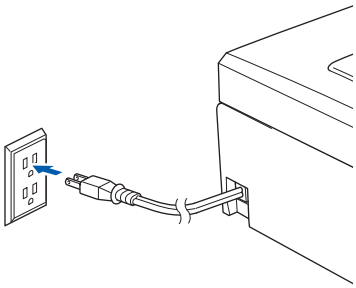
Do not use the paper support flap ② for Legal size paper.

Note

You can use the photo bypass tray which is located on the top of the paper tray to print on photo 4×6 in. (10×15 cm) and photo L size paper. For details, see Loading photo paper in Chapter 2 of the User's Guide.

3 Connecting the power cord

1 Connect the power cord.



Improper Setup

DO NOT connect the interface cable. Connecting the interface cable is done during the software installation process.

Note

The control panel warning LED will stay on until you have installed the ink cartridges.

4 Installing the ink cartridges

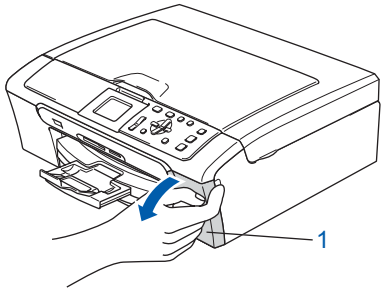
Warning

If ink gets in your eyes, wash them out with water at once, and if irritation occurs consult a doctor.

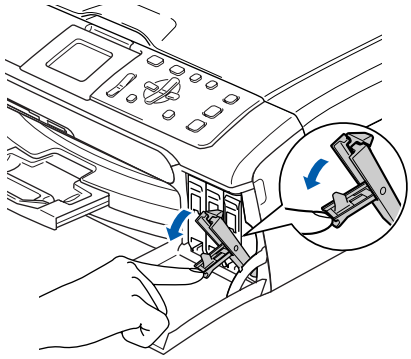
1 Make sure that the power is turned on. The LCD shows:

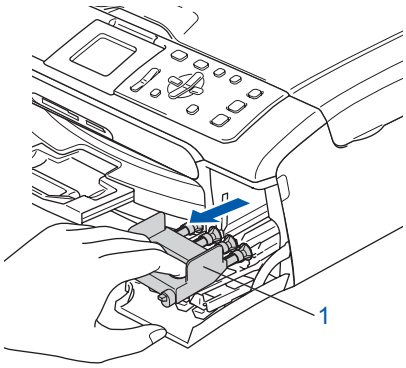
```
No Cartridge
Black
Yellow
Cyan
Magenta
```

2 Open the ink cartridge cover (1).



3 Pull all the lock release levers down and remove the yellow protective part (1).

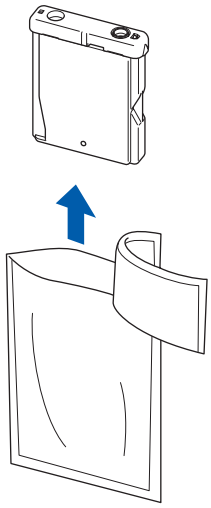




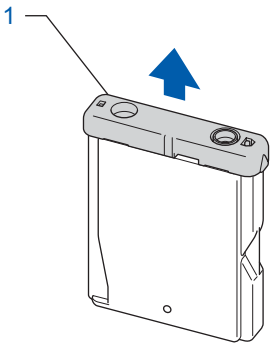
Note

Do not throw away the yellow protective part. You will need it if you transport the machine.

4 Take out the ink cartridge.

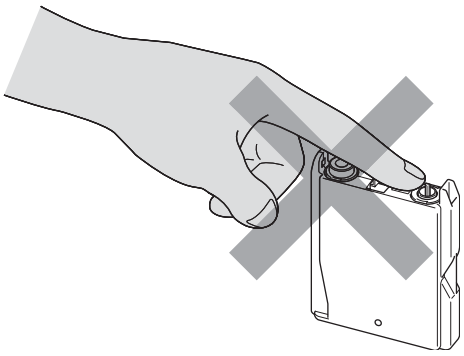


5 Carefully remove the protective yellow cap (1).



Improper Setup

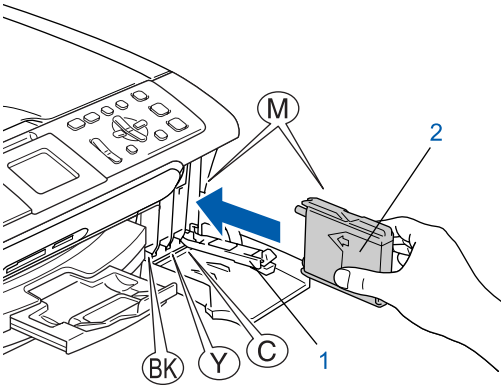
DO NOT touch the area shown in the illustration below.

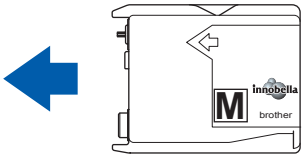


Note

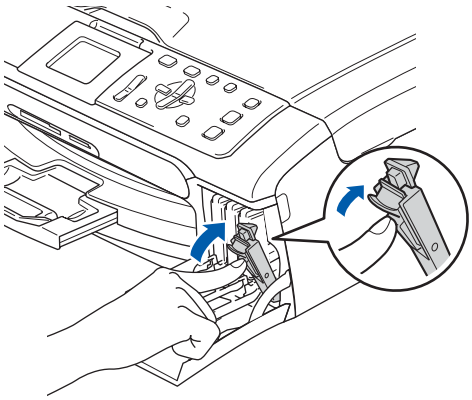
If the protective yellow cap comes off when you open the bag, the cartridge will not be damaged.

6 Install each ink cartridge in the direction of the arrow on the label.
Take care to match the color of the lock release lever (1) with the cartridge color (2), as shown in the diagram below.





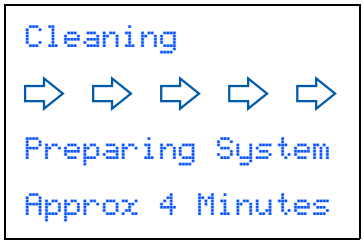
7 Lift each lock release lever and gently push it until it clicks, and then close the ink cartridge cover.



Note

If the LCD prompts you to re-insert the ink cartridge correctly, after you install the ink cartridges, check that the ink cartridges are installed properly.

The first time the ink cartridges are installed the machine prepares and cleans the ink tube system. This initial process will take more time than a normal cleaning cycle but will happen only once.
The LCD shows:

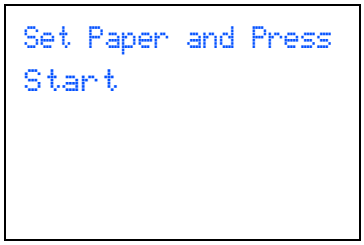


Caution

- DO NOT take out ink cartridges if you do not need to replace them. If you do so, it may reduce the ink quantity and the machine will not know the quantity of ink left in the cartridge.
- DO NOT shake the ink cartridges. If ink stains your skin or clothing, wash with soap or detergent at once.
- DO NOT repeatedly insert and remove the cartridges. If you do so, ink may seep out of the cartridge.
- If you mix the colors by installing an ink cartridge in the wrong position, clean the print head several times after correcting the cartridge installation. (See *Cleaning the print head in Appendixes B of the User's Guide*.)
- Once you open an ink cartridge, install it in the machine and use it up within six months of installation. Use unopened ink cartridges by the expiration date written on the cartridge package.
- DO NOT dismantle or tamper with the ink cartridge, this can cause the ink to leak out of the cartridge.
- Brother strongly recommends that you do not refill the ink cartridges provided with your machine. We also strongly recommend that you continue to use only Genuine Brother Brand replacement ink cartridges. Using or attempting to use potentially incompatible inks and/or cartridges in your machine may cause damage to the machine itself and/or it may result in unsatisfactory print quality. Our warranty coverage does not apply to any problem that was caused by the use of unauthorized third party ink and/or cartridges. To protect your investment and guarantee your print quality please continue to replace consumed ink cartridges with only Genuine Brother Branded Supplies.

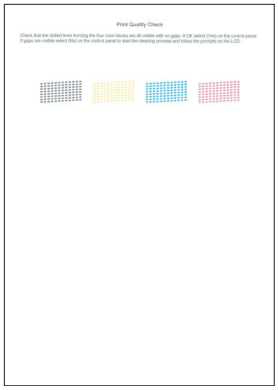
5 Print quality check

1 After the cleaning cycle is finished, the LCD shows:



2 Make sure A4, Letter or Legal size paper is loaded in the paper tray.
Press **Color Start**.
The machine starts printing the Print Quality Check Sheet (only during initial ink cartridge installation).

3 Check the quality of the four color blocks on the sheet.
(black/ yellow/ cyan/ magenta)



Improper Setup

Avoid touching the printed surface of the paper immediately after printing, the surface may not be completely dry and may stain your fingers.

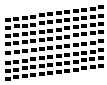
4 The LCD shows:

```
Is Quality OK?

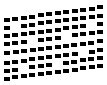
Yes  → Press +
No   → Press -
```

- If all lines are clear and visible, press + (Yes) to finish the quality check.
- If you can see missing short lines, press - (No) and go to step **5**.

OK



Poor



5 The LCD asks you if the print quality is OK for black and color. Press + (Yes) or - (No).

```
Black OK?

Yes  → Press +
No   → Press -
```

```
Color OK?

Yes  → Press +
No   → Press -
```

After pressing + (Yes) or - (No) for both black and color, the LCD shows:

```
Start Cleaning?

Yes  → Press +
No   → Press -
```

6 Press + (Yes), the machine will then start cleaning the colors.

7 After cleaning is finished, press **Color Start**. The machine starts printing the Print Quality Check Sheet again and goes back to step **3**.

6 Choosing your language (Canada only)

1 Press **Menu**.

2 Press ▲ or ▼ to choose Initial Setup. Press **OK**.

3 Press ▲ or ▼ to choose Local Language. Press **OK**.

4 Press ▲ or ▼ to choose your language (English or French), and then press **OK**.

```
Local Language
English
French
```

5 Press **Stop/Exit**.

7 Setting the LCD contrast

You can adjust the LCD contrast for a sharper and more vivid display. If you are having difficulty reading the LCD, try changing the contrast setting.

1. Press **Menu**.
2. Press ▲ or ▼ to choose `General Setup`. Press **OK**.
3. Press ▲ or ▼ to choose `LCD Settings`. Press **OK**.
4. Press ▲ or ▼ to choose `LCD Contrast`. Press **OK**.
5. Press ▲ or ▼ to choose `Light`, `Med` or `Dark`. Press **OK**.
6. Press **Stop/Exit**.

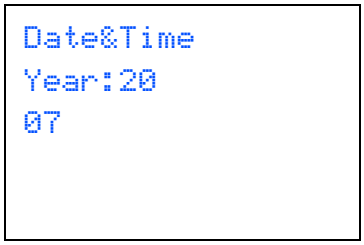
Note

You can also adjust the angle of the LCD display by lifting it.

8 Setting the date and time

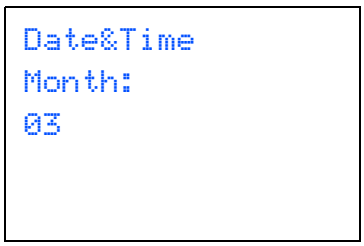
Setting the date and time allows the machine to clean the print head regularly and maintain optimum print quality. It also allows the machine to name files created when using the Scan to Media feature.

1. Press **Menu**.
2. Press ▲ or ▼ to choose `Initial Setup`, and then press **OK**.
3. Press ▲ or ▼ to choose `Date&Time`, and then press **OK**.
4. Press ▲ or ▼ to enter the last two digits of the year, and then press **OK**.



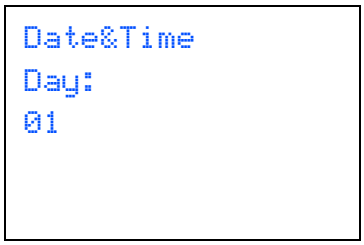
(e.g. Enter **0 7** for 2007.)

5. Press ▲ or ▼ to enter the two digits for the month, and then press **OK**.



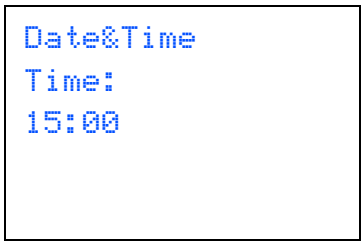
(e.g. Enter **0 3** for March.)

6. Press ▲ or ▼ to enter the two digits for the day, and then press **OK**.



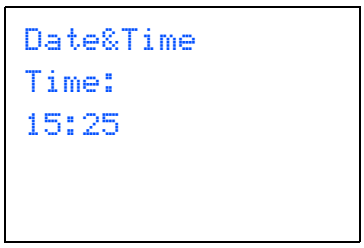
(e.g. Enter **0 1** for the first day of the month.)

7 Press ▲ or ▼ to enter the two digits for the hour in 24-hour format, and then press to enter the minutes.



(e.g. Enter **1** **5** for 3:00 P.M.)

8 Press ▲ or ▼ to enter the two digits for the minute, and then press **OK**.



(e.g. Enter **1** **5**, **2** **5** for 3:25 P.M.)

Note

You can increase or decrease the number rapidly by holding down ▲ or ▼.

9 Press **Stop/Exit**.

Note

*If you make a mistake and want to start again, press **Stop/Exit** to go back to step **1**.*

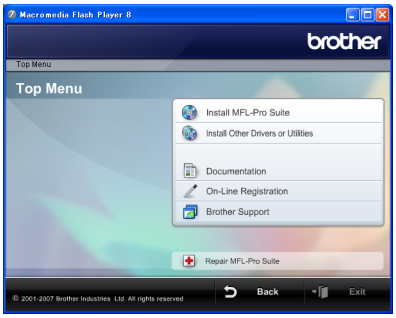
To confirm the current date and time, print out the User Settings report. (See Printing Reports in Chapter 1 of the User's Guide.)

Now go to

Supplied CD-ROM 'MFL-Pro Suite' on the next page to install the drivers.

Supplied CD-ROM ‘MFL-Pro Suite’

Windows®



Install MFL-Pro Suite

You can install the MFL-Pro Suite software and multifunction drivers.

Install Other Drivers or Utilities

You can install additional MFL-Pro Suite software utilities, install without ScanSoft™ PaperPort™ 11SE with OCR by NUANCE™, install the printer driver only (DCP-560CN only) or install FaceFilter Studio.

Documentation

View the Software User’s Guide and Network User’s Guide (DCP-560CN only) in HTML format. You can also view the manuals in PDF format by accessing the Brother Solution Center. The Software User’s Guide and Network User’s Guide include instructions for features available when connected to a computer. (eg. Printing, scanning and networking details)

On-Line Registration

Register your machine from the Brother product Registration Page.

Brother Support

View contact information for Brother Customer Service and how to find a Brother Authorized Service Center. View our web site for original/genuine Brother supplies at http://www.brother.com/original/ for Supplies Information.

Repair MFL-Pro Suite (USB only)

If an error occurred during the installation of the MFL-Pro Suite, use this selection to automatically repair and re-install the MFL-Pro Suite.

Note

MFL-Pro Suite includes the Printer Driver, Scanner Driver, Brother ControlCenter3, ScanSoft™ PaperPort™ 11SE.
ScanSoft™ PaperPort™ 11SE is a document management application for scanning and viewing documents.

Macintosh®

Start Here OSX

You can install the MFL-Pro Suite that includes the printer driver, scanner driver, Brother ControlCenter2 and BRAdmin Light (DCP-560CN only) for Mac OS® X 10.2.4 or greater.

Presto! PageManager

You can also install Presto!® PageManager® to add OCR capability to Brother ControlCenter2 and easily scan, share and organize photos and documents.

For Mac OS® X10.3.9 or greater users, you can directly install the software from the included CD-ROM, follow the steps in Installing the Drivers & Software.

For Mac OS® X10.2.4 to 10.3.8 users, you need to download the software from the Brother Solutions Center web site. To download, follow the steps in Installing the Drivers & Software.

Documentation

View the Software User’s Guide and Network User’s Guide (DCP-560CN only) in HTML format. You can also view the manuals in PDF format by accessing the Brother Solution Center. The Software User’s Guide and Network User’s Guide include instructions for features available when connected to a computer. (eg. Printing, scanning and networking details)

Brother Solutions Center

Access the Brother Solutions Center for FAQs, User’s Guides, driver updates and tips for using your machine. (Internet access required.)

On-Line Registration

Register your machine from the Brother product Registration Page.

Utilities

You can find the following additional Utilities from this folder.

- Presto!® PageManager® Uninstaller
- BRAdmin Light (DCP-560CN only)

STEP 2 Installing the Driver & Software

Follow the instructions on this page for your operating system and interface.
For the latest drivers, documentation, and to find the best solution for your problem, access the Brother Solution Center directly from the CD-ROM / Driver or visit http://solutions.brother.com.

The screens for Mac OS® X in this Quick Setup Guide are based on Mac OS® X 10.4

Screens on your computer may vary depending on your operating system.

For USB Interface Users (For Windows® 2000 Professional/XP/ XP Professional x64 Edition/Windows Vista™)

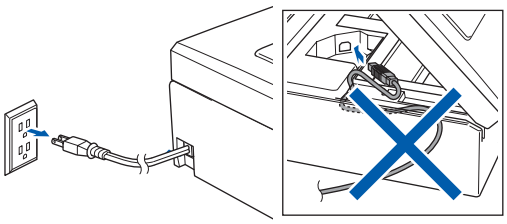
Important

Make sure that you have finished the instructions from STEP 1 *Setting Up the Machine* on pages 4 through 11.

Note

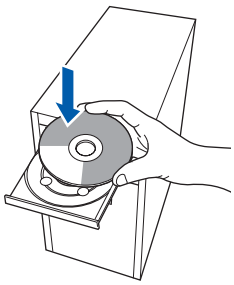
- *The supplied CD-ROM includes ScanSoft™ PaperPort™ 11SE. This software supports Windows® 2000 (SP4 or greater), XP (SP2 or greater), XP Professional x64 Edition and Windows Vista™ only. Please update to the latest Windows® Service Pack before installing MFL-Pro Suite.*
- *Please close any applications running before installing MFL-Pro Suite.*
- *Make sure there are no memory cards or a USB Flash memory drive inserted into the media drives or USB direct interface at the front of the machine.*

1 Unplug the machine from the AC outlet and from your computer, if you already connected an interface cable.



2 Turn on your PC.
You must be logged on with Administrator rights.

3 Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

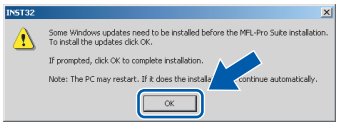


4 The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.

If this window does not appear, use Windows® Explorer to run the **start.exe** program from the root folder of the Brother CD-ROM.

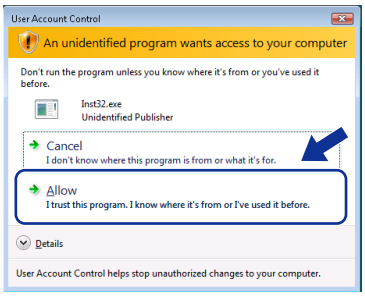
Note

- *If this screen appears, click **OK** and restart your computer.*

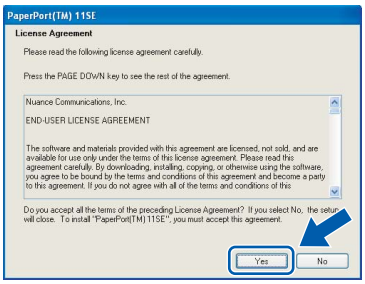


- *If the installation does not continue automatically, open the main menu again by ejecting and then reinserting the CD-ROM disc or double-click the **start.exe** program from the root folder, and continue from step **4** to install MFL-Pro Suite.*

- *For Windows Vista™, when the User Account Control screen appears, click **Allow**.*

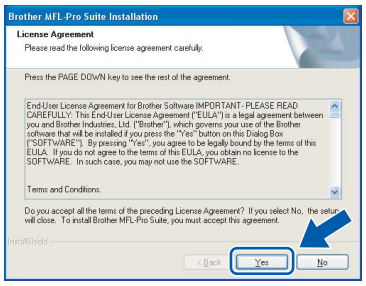


5 After reading and accepting the ScanSoft™ PaperPort™ 11SE License Agreement, click **Yes**.

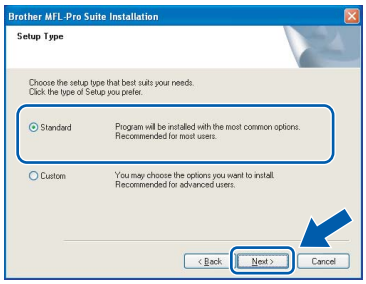


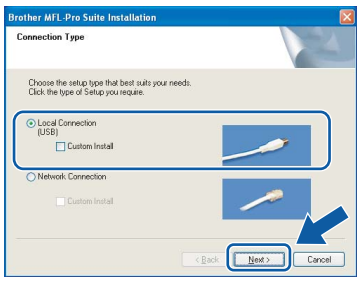
6 The installation of ScanSoft™ PaperPort™ 11SE will automatically start and is followed by the installation of MFL-Pro Suite.

7 When the Brother MFL-Pro Suite Software License Agreement window appears, click **Yes** if you agree to the Software License Agreement.

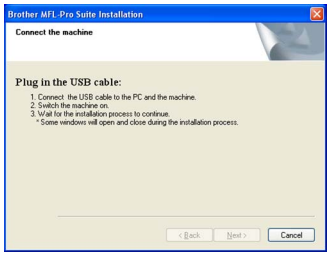


8 Choose **Standard** (DCP-350C) or **Local Connection** (DCP-560CN), and then click **Next**. The installation continues.

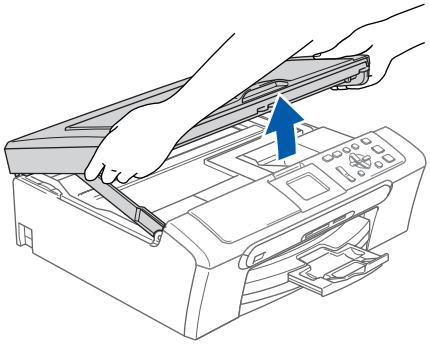




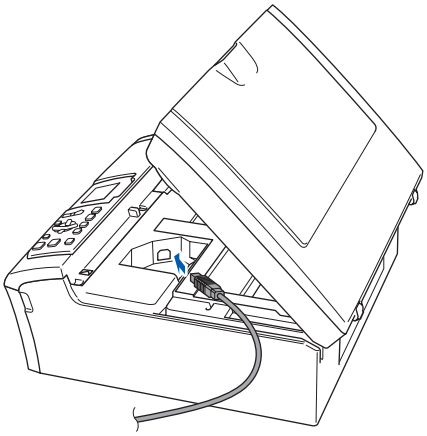
9 When this screen appears, go to the next step.



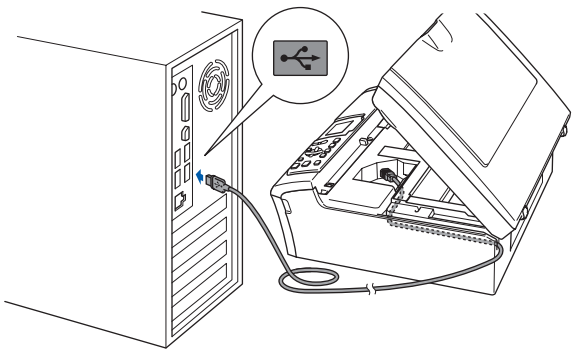
10 Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.



11 Insert the USB cable into the USB socket marked with a symbol. You will find the USB socket inside the machine as shown below.



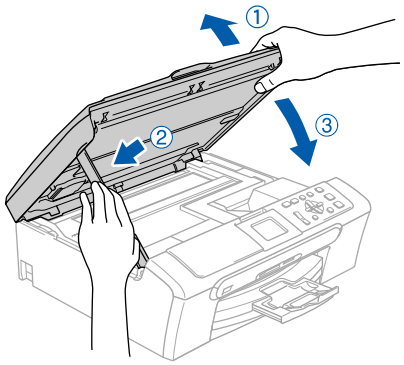
12 Carefully route the USB cable through the trench and out the back of the machine as shown below and connect the cable to your computer.



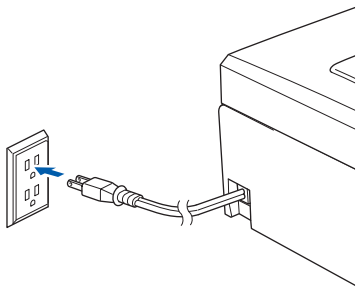
Improper Setup

- **DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub. Brother recommends that you connect the machine directly to your computer.**
- **Make sure that the cable does not restrict the cover from closing, or an error may occur.**
- **Make sure you use a USB 2.0 cable that is no longer than 6 feet (2 meters) long.**

13 Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③.



14 Turn on the machine by connecting the power cord.

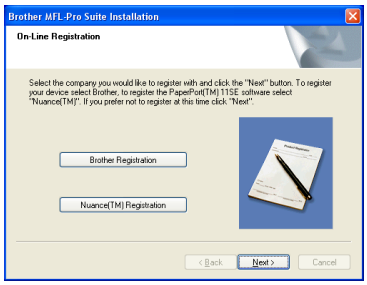


The installation of the Brother drivers will automatically start. The installation screens appear one after another. **Please wait, it will take a few seconds for all the screens to appear.**

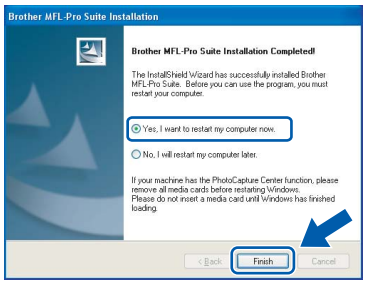
Improper Setup

DO NOT try to cancel any of the screens during this installation.

15 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.



16 Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.



Note

*After restarting the computer, the Installation Diagnostics will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the Diagnostics shows a failure, please follow the on-screen instructions or read the on-line help and FAQs in **Start/All Programs/Brother/DCP-XXXX**.*

OK!

The MFL-Pro Suite has been installed completely. Proceed to *Installing FaceFilter Studio* on page 17 to install the FaceFilter Studio application.

Note

MFL-Pro Suite includes the Printer Driver, Scanner Driver, Brother ControlCenter3, ScanSoft™ PaperPort™ 11SE. ScanSoft™ PaperPort™ 11SE is a document management application for scanning and viewing documents.

Installing FaceFilter Studio

FaceFilter Studio is an easy-to-use borderless photo printing application. FaceFilter Studio also lets you edit your photo data and add photo effects such as red eye reduction or skin tone enhancement.

Important

Before you launch FaceFilter Studio for the first time, you must confirm MFL-Pro Suite is installed, your Brother machine is turned ON and connected to your computer.

17 Open the main menu again by ejecting and then reinserting the CD-ROM disc or by double-clicking the **start.exe** program from the root folder.

18 The CD-ROM main menu will appear. Click **Install Other Drivers or Utilities**.

19 Click the **FaceFilter Studio** button to install.

20 For information on basic FaceFilter Studio functions, see *Using FaceFilter Studio for photo printing by REALLUSION in the Software User's Guide on the CD-ROM*.
For more detailed information, install FaceFilter Studio Help. See *Instructions on how to install FaceFilter Studio Help (For Windows® users)* on page 30.

For Network Interface Users (DCP-560CN only) (For Windows® 2000 Professional/XP/ XP Professional x64 Edition/Windows Vista™)

Important

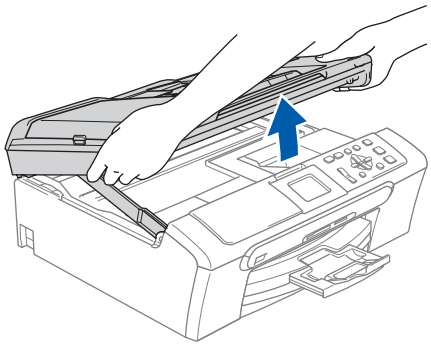
Make sure that you have finished the instructions from STEP 1 *Setting Up the Machine* on pages 4 through 11.

Note

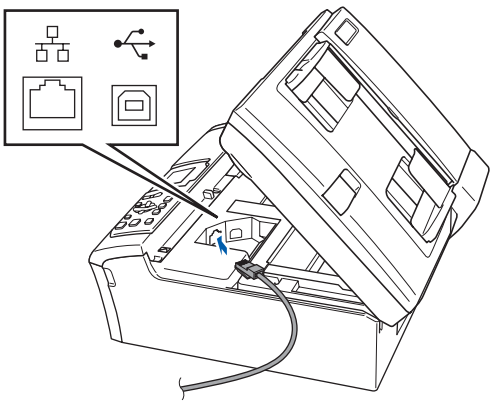
- *The supplied CD-ROM includes ScanSoft™ PaperPort™ 11SE. This software supports Windows® 2000 (SP4 or greater), XP (SP2 or greater), XP Professional x64 Edition and Windows Vista™ only. Please update to the latest Windows® Service Pack before installing MFL-Pro Suite.*
- *Please close any applications running before installing MFL-Pro Suite.*
- *Make sure there are no memory cards or a USB Flash memory drive inserted into the media drives or USB direct interface at the front of the machine.*

1 Unplug the machine from the AC outlet.

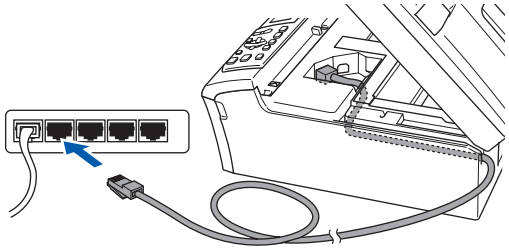
2 Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.



3 Insert the network cable into the LAN socket marked with a symbol. You will find the LAN socket inside the machine on the left as shown below.



4 Carefully route the network cable through the trench and out the back of the machine as shown below.
Then, connect the cable to your network.



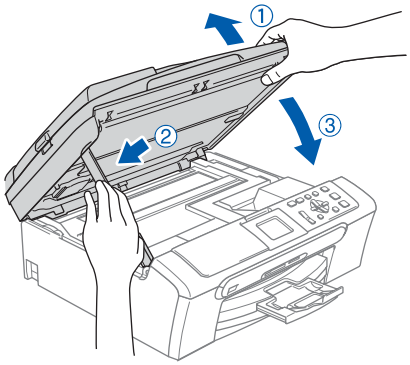
Improper Setup

Make sure that the cable does not restrict the cover from closing, or an error may occur.

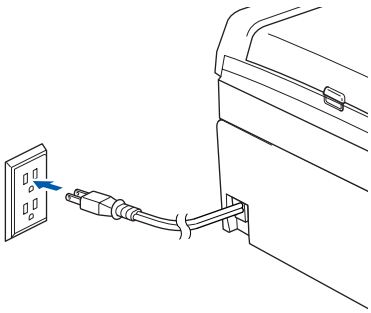
Note

If both USB and LAN cables are being used, guide both cables through the trench with one on top of the other.

5 Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③.



6 Turn on the machine by connecting the power cord.

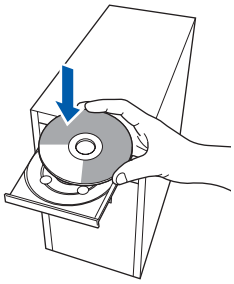


7 Turn on your computer.
You must be logged on with Administrator rights.
Close any applications running before installing MFL-Pro Suite.

Note

Before installation, if you are using Personal Firewall software, disable it. After the installation, restart your Personal Firewall sofware.

8 Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

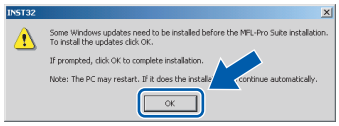


9 The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.

If this window does not appear, use Windows® Explorer to run the **start.exe** program from the root folder of the Brother CD-ROM.

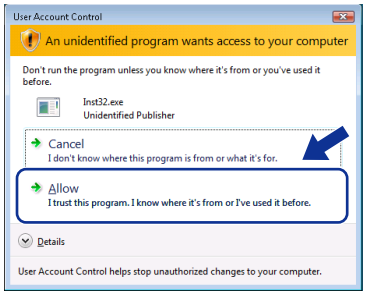
Note

- *If this screen appears, click **OK** and restart your computer.*

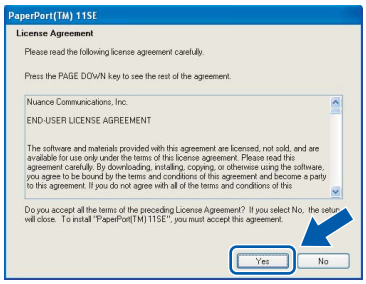


- *If the installation does not continue automatically, open the main menu again by ejecting then reinserting the CD-ROM disc or double-click the **start.exe** program from the root folder, and continue from step **9** to install MFL-Pro Suite.*

- *For Windows Vista™, when the User Account Control screen appears, click **Allow**.*

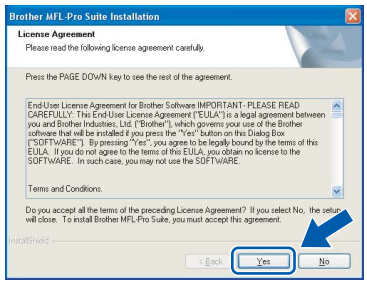


10 After reading and accepting the ScanSoft™ PaperPort™ 11SE License Agreement, click **Yes**.

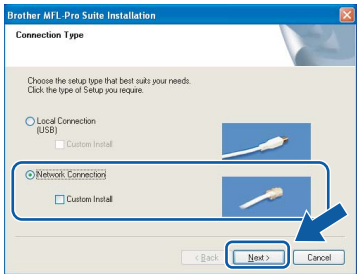


11 The installation of ScanSoft™ PaperPort™ 11SE will automatically start and is followed by the installation of MFL-Pro Suite.

12 When the Brother MFL-Pro Suite Software License Agreement window appears, click **Yes** if you agree to the Software License Agreement.

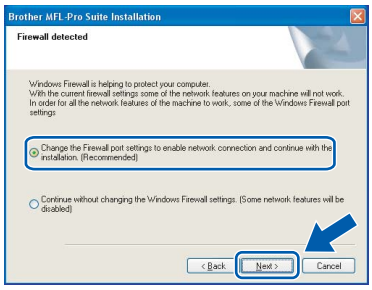


13 Choose **Network Connection**, and then click **Next**.



Windows® Network

14 For Windows® XP SP2/Windows Vista™ users, when this screen appears, choose **Change the Firewall port settings to enable network connection and continue with the installation. (Recommended)** and click **Next**.

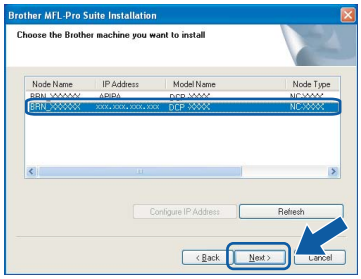


If you are not using the Windows® Firewall, see the User's Guide for your software for information on how to add the following network ports.

- For network scanning, add UDP port 54925.
- If you still have trouble with your network connection, add UDP port 137.

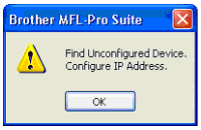
Note

- *If the machine is configured for your network, choose the machine from the list, and then click **Next**.*
  This window will not appear if there is only one machine connected on the network, it will be chosen automatically.



*If your machine shows **APIPA** in the **IP Address** field, click **Configure IP Address** and enter an IP address for your machine that is suitable for your network.*

- *If the machine is not yet configured for use on your network, the following screen appears.*

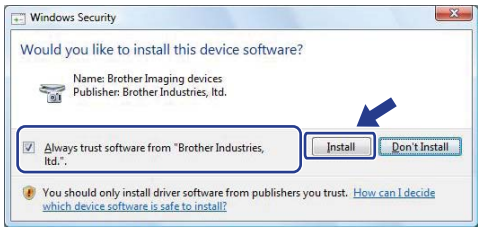


*Click **OK**.*
*The **Configure IP Address** window will appear. Enter an IP address for your machine that is suitable for your network by following the on-screen instructions.*

15 The installation of the Brother drivers will automatically start. The installation screens appear one after another. **Please wait, it will take a few seconds for all the screens to appear.**

Note

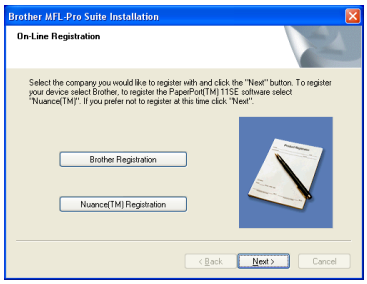
*For Windows Vista™, when this screen appears, click the check box and click **Install** to complete the installation properly.*



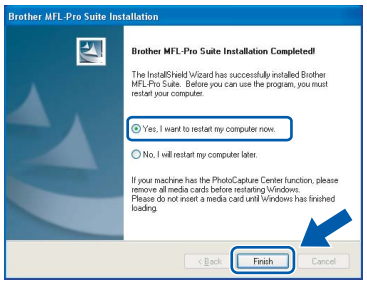
Improper Setup

DO NOT try to cancel any of the screens during this installation.

16 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.



17 Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.



Note

*After restarting the computer, the Installation Diagnostics will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the Diagnostics shows a failure, please follow the on-screen instructions or read the on-line help and FAQs in **Start/All Programs/Brother/DCP-XXXX**.*

OK! **The MFL-Pro Suite has been installed completely. Proceed to *Installing FaceFilter Studio* on page 21 to install the FaceFilter Studio application.**

Note

MFL-Pro Suite includes the Network Printer Driver, Network Scanner Driver, Brother ControlCenter3, ScanSoft™ PaperPort™ 11SE. ScanSoft™ PaperPort™ 11SE is a document management application for scanning and viewing documents.

Installing FaceFilter Studio

FaceFilter Studio is an easy-to-use borderless photo printing application. FaceFilter Studio also lets you edit your photo data and add photo effects such as red eye reduction or skin tone enhancement.

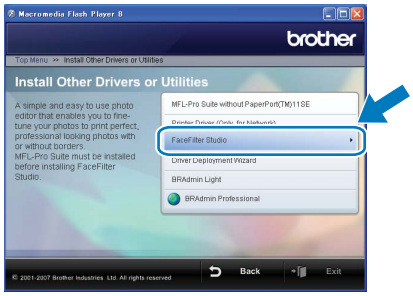
Important

Before you launch FaceFilter Studio for the first time, you must confirm MFL-Pro Suite is installed, your Brother machine is turned ON and connected to your network.

18 Open the main menu again by ejecting and then reinserting the CD-ROM disc or by double-clicking the **start.exe** program from the root folder.

19 The CD-ROM main menu will appear. Click **Install Other Drivers or Utilities**.

20 Click the **FaceFilter Studio** button to install.



21 For information on basic FaceFilter Studio functions, see *Using FaceFilter Studio for photo printing by REALLUSION in the Software User's Guide on the CD-ROM*.
For more detailed information, install FaceFilter Studio Help. See *Instructions on how to install FaceFilter Studio Help (For Windows® users)* on page 30.

For USB Interface Users (For Mac OS® X 10.2.4 or greater)

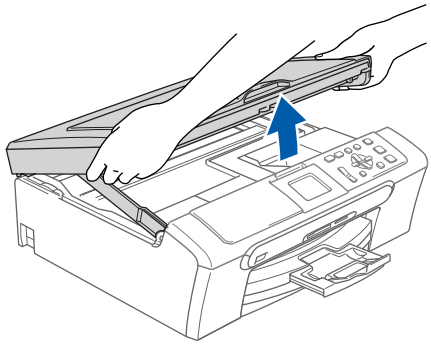
Important

Make sure that you have finished the instructions from STEP 1 *Setting Up the Machine* on pages 4 through 11.

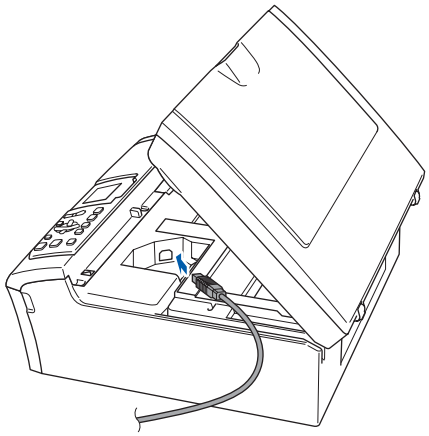
Note

- *For Mac OS® X 10.2.0 to 10.2.3 users, upgrade to Mac OS® X 10.2.4 or greater. (For the latest information for Mac OS® X, visit http://solutions.brother.com)*
- *Make sure there are no memory cards or a USB Flash memory drive inserted into the media drives or USB direct interface at the front of the machine.*

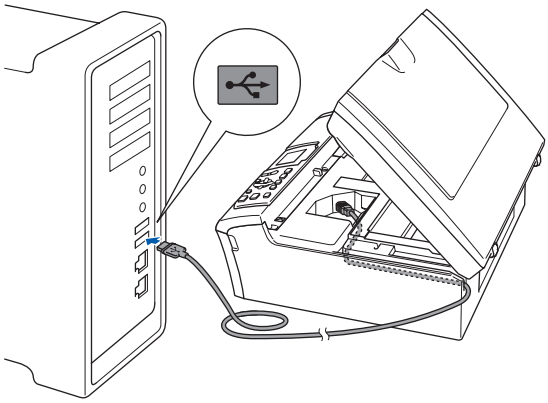
1 Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.



2 Insert the USB cable into the USB socket marked with a symbol. You will find the USB socket inside the machine as shown below.



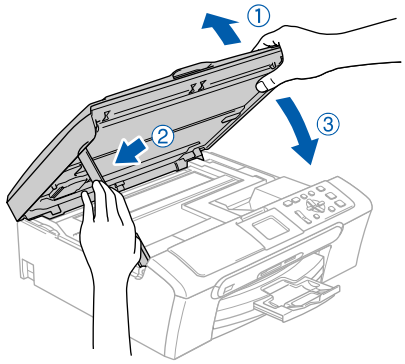
3 Carefully route the USB cable through the trench and out the back of the machine as shown below and connect the cable to your Macintosh®.



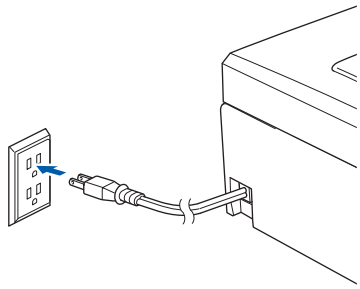
Improper Setup

- **DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub. Brother recommends that you connect the machine directly to your Macintosh®.**
- **Make sure that the cable does not restrict the cover from closing, or an error may occur.**
- **Make sure you use a USB 2.0 cable that is no longer than 6 feet (2 meters) long.**

4 Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③.

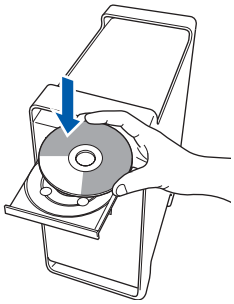


5 Turn on the machine by connecting the power cord.

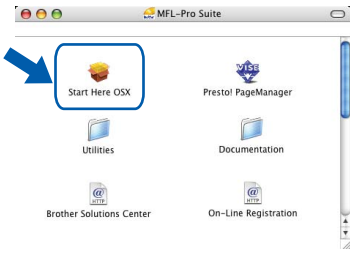


6 Turn on your Macintosh®.

7 Put the supplied CD-ROM into your CD-ROM drive.



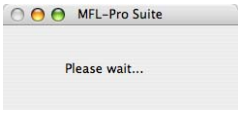
8 Double-click the **Start Here OSX** icon to install. Follow the on-screen instructions.



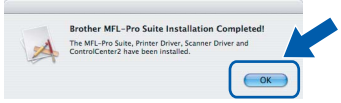
Note

Please wait, it will take a few seconds for the software to install. After the installation, click ***Restart*** *to finish installing the software.*

9 The Brother software will search for the Brother device. During this time the following screen will appear.

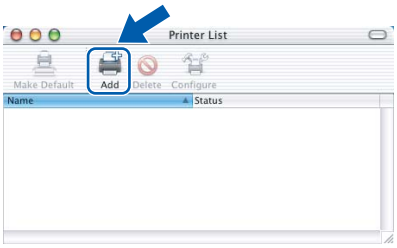


10 When this screen appears, click **OK**.

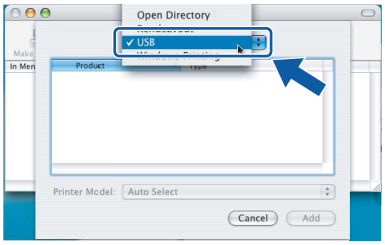


OK! **For Mac OS® X 10.3.x or greater users: The MFL-Pro Suite, Brother printer driver, scanner driver and Brother ControlCenter2 have been installed and the installation is now complete. Go to step 15.**

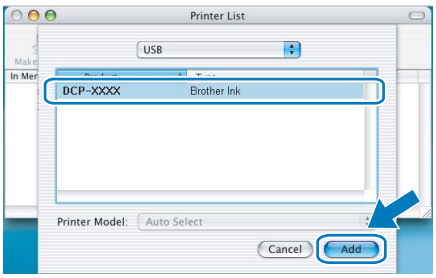
11 For Mac OS® X 10.2.4 to 10.2.8 users: Click **Add**.



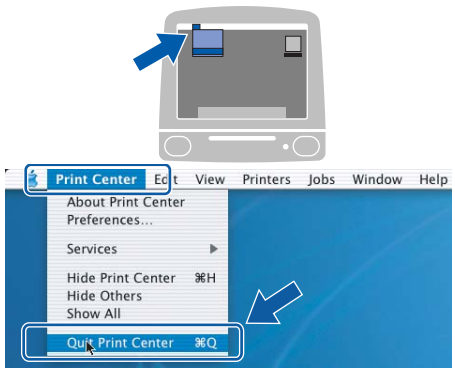
12 Choose **USB**.



13 Choose **DCP-XXXX** (where XXXX is your model name), and then click **Add**.



14 Click **Print Center**, then **Quit Print Center**.



OK! **The MFL-Pro Suite, Brother printer driver, scanner driver and Brother ControlCenter2 have been installed and the installation is now complete.**

15 To install Presto!® PageManager®, double-click the **Presto! PageManager** icon and follow the on-screen instructions.

For Mac OS® X 10.2.4 to 10.3.8 users: When this screen appears, click **Go** to download the software from the Brother Solutions Center web site.

Note

When Presto!® PageManager® is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto!® PageManager®.

OK! **Presto!® PageManager® has been installed and the installation is now complete.**

For Network Interface Users (DCP-560CN only) (For Mac OS® X 10.2.4 or greater)

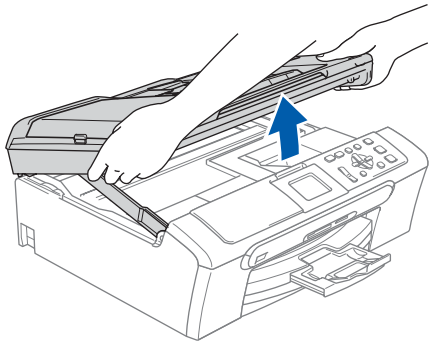
Important

Make sure that you have finished the instructions from STEP 1 *Setting Up the Machine* on pages 4 through 11.

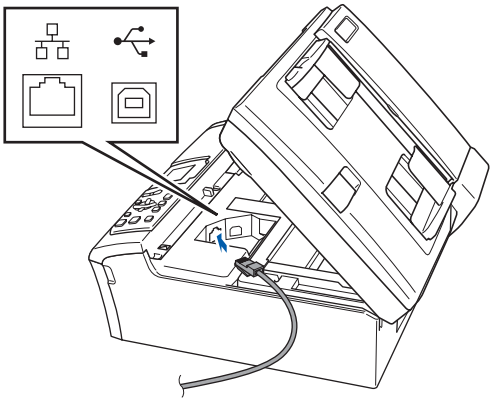
Note

- *For Mac OS® X 10.2.0 to 10.2.3 users, upgrade to Mac OS® X 10.2.4 or greater. (For the latest information for Mac OS® X, visit http://solutions.brother.com)*
- *Make sure there are no memory cards or a USB Flash memory drive inserted into the media drives or USB direct interface at the front of the machine.*

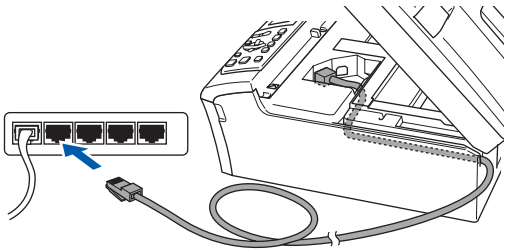
1 Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.



2 Insert the network cable into the LAN socket marked with a symbol. You will find the LAN socket inside the machine on the left as shown below.



3 Carefully route the network cable through the trench and out the back of the machine as shown below.
Then, connect the cable to your network.



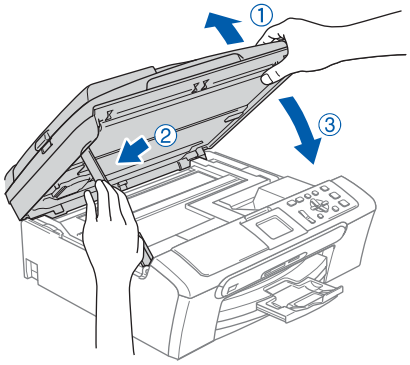
Improper Setup

Make sure that the cable does not restrict the cover from closing, or an error may occur.

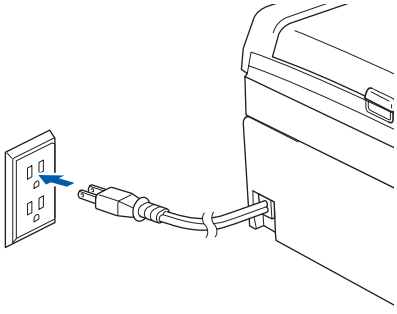
Note

If both USB and LAN cables are being used, guide both cables through the trench with one on top of the other.

4 Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③.

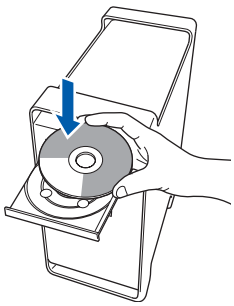


5 Turn on the machine by connecting the power cord.

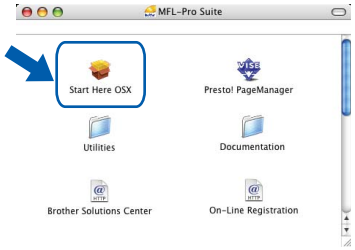


6 Turn on your Macintosh®.

7 Put the supplied CD-ROM into your CD-ROM drive.

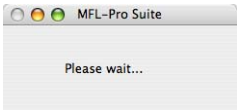


8 Double-click the **Start Here OSX** icon to install. Follow the on-screen instructions.



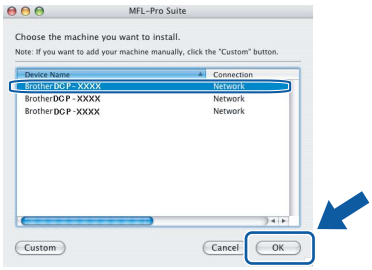
Please wait, it will take a few seconds for the software to install. After the installation, click **Restart** to finish installing the software.

9 The Brother software will search for the Brother device. During this time the following screen will appear.



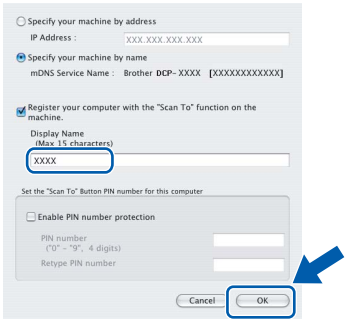
Note

- *If the machine is configured for your network, choose the machine from the list, and then click **OK**. This window will not appear if there is only one machine connected on the network, it will be chosen automatically. Go to step **10**.*



- *If this screen appears click **OK**.*

*Enter a name for your Macintosh® in **Display Name** up to 15 characters long and click **OK**. Go to step **10**.*

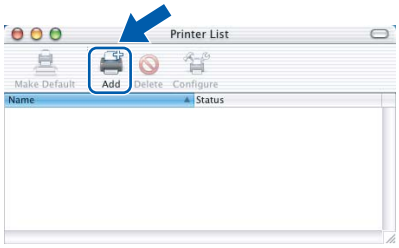


- *If you want to use the machine's Scan key to scan over the network you must check the **Register your computer with the "Scan To" function on the machine** box.*
- *The name you enter will appear on the machine's LCD when you press the **Scan** key and choose a scan option. (For more information, see Network Scanning in the Software User's Guide on the CD-ROM.)*

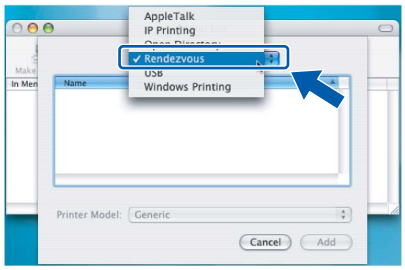
10 When this screen appears, click **OK**.

For Mac OS® X 10.3.x or greater users: The MFL-Pro Suite, Brother printer driver, scanner driver and Brother ControlCenter2 have been installed and the installation is now complete. Go to step 15.

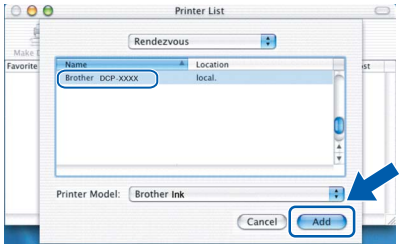
11 For Mac OS® X 10.2.4 to 10.2.8 users: Click **Add**.



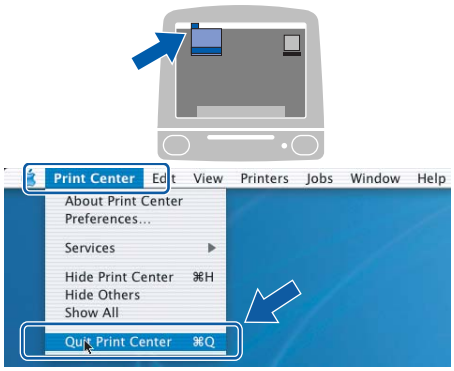
12 Make the selection shown below.



13 Choose **DCP-XXXX** (where XXXX is your model name), and then click **Add**.



14 Click **Print Center**, then **Quit Print Center**.



OK! **The MFL-Pro Suite, Brother printer driver, scanner driver and Brother ControlCenter2 have been installed and the installation is now complete.**

15 To install Presto!® PageManager®, double-click the **Presto! PageManager** icon and follow the on-screen instructions.

For Mac OS® X 10.2.4 to 10.3.8 users: When this screen appears, click **Go** to download the software from the Brother Solutions Center web site.

Note

When Presto!® PageManager® is installed OCR capability is added to the Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto!® PageManager®.

OK! **Presto!® PageManager® has been installed and the installation is now complete.**

BRAdmin Light utility (For Windows® users)

The BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address.
For more information on BRAdmin Light, visit us at http://solutions.brother.com.

Note

If you require more advanced printer management, use the latest Brother BRAdmin Professional utility version that is available as a download from http://solutions.brother.com.

Installing the BRAdmin Light configuration utility

1 Click **Install Other Drivers or Utilities** on the menu screen.

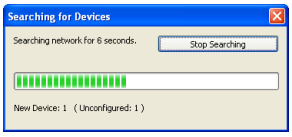
2 Click **BRAdmin Light** and follow the on-screen instructions.

Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

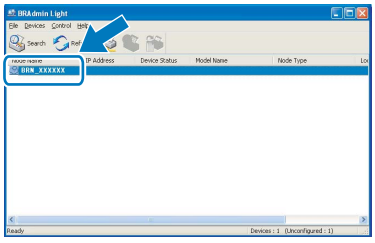
Note

If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. Because the print server will automatically obtain its IP address.

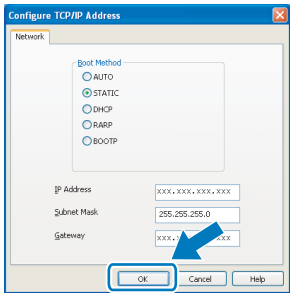
1 Start BRAdmin Light. It will search for new devices automatically.



2 Double-click the unconfigured device.



3 Choose **STATIC** for the **Boot Method**. Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click **OK**.



4 The address information will be saved to the machine.

BRAdmin Light utility (For Mac OS® X users)

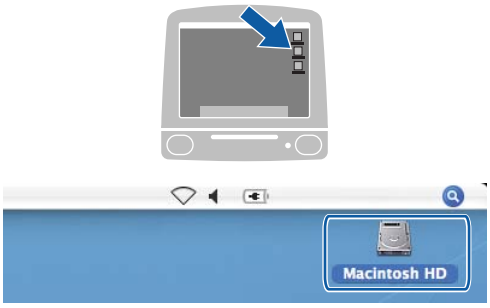
The BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address from a computer running Mac OS® X 10.2.4 or greater.
The BRAdmin Light software will be installed automatically when you install the printer driver. If you have already installed the printer driver, you don't have to install it again. For more information on BRAdmin Light, visit us at http://solutions.brother.com.

Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

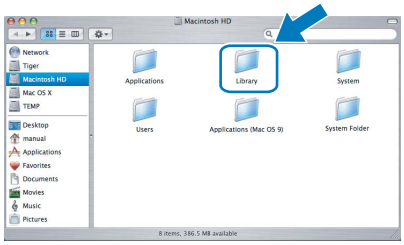
Note

- *If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. The print server will automatically obtain its own IP address.*
- *Make sure that version 1.4.1_07 or later of Java™ client software is installed on your computer.*

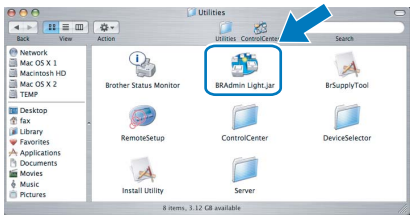
1 Double-click the **Macintosh HD** icon on your desktop.



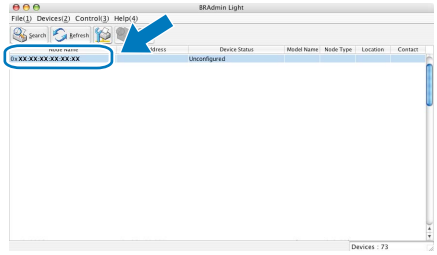
2 Choose **Library**, **Printers**, **Brother** and then **Utilities**.



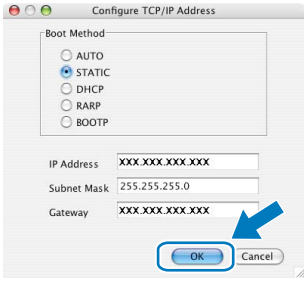
3 Double click the file **BRAdmin Light.jar** and run the software. BRAdmin Light will then search for new devices automatically.



4 Double-click the unconfigured device.



5 Choose **STATIC** for the **Boot Method**. Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click **OK**.



6 The address information will be saved to the machine.

Installing FaceFilter Studio Help

Instructions on how to install FaceFilter Studio Help (For Windows® users)

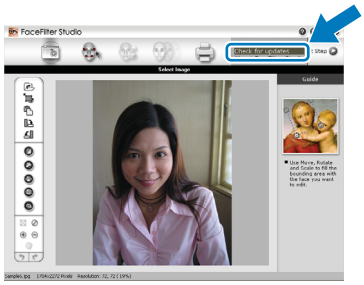
To get instructions on how to use FaceFilter Studio, download and install FaceFilter Studio Help. Your computer must be connected to the internet.

Installing FaceFilter Studio Help

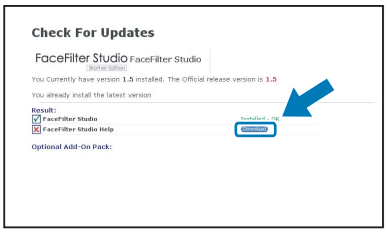
1. To run FaceFilter Studio, go to **Start/All Programs/FaceFilter Studio** in the **Start** menu.

2. Click the button on the upper right corner of the screen.

3. Click **Check for updates** to go to the Reallusion update web page.



4. Click the **Download** button and choose a folder to save the file in.



5. Close FaceFilter Studio before you start the installer for FaceFilter Studio Help. Double-click the downloaded file from the folder you specified and follow the on-screen instructions for installation.

Note

*To view the complete FaceFilter Studio Help, choose **Start/All Programs/FaceFilter Studio/ FaceFilter Studio Help** on your computer.*

Replacement consumables

When the time comes to replace ink cartridges, an error message will be indicated on the LCD. For more information about the ink cartridges for your machine, visit http://solutions.brother.com or contact your local Brother re-seller.
